Subject: Approval of Elimination of Bus Stops on Routes 4, 7, and 9	

Details:
This item is to seek the approval to eliminate selected bus stops on Routes 4, 7 and 9. These stops are determined to be not needed because of low ridership and other bus stops are within a block or two. The elimination of these stops will help the operation of the system as the bus will not have to make as many potential stops along the routes and there will be less bus stops to maintain. Eliminating these stops should have minimal impact on the passengers.

Options & Alternatives:
The bus stops can remain but the gains from operations described would not be obtained.

Financial Remarks:
The cost associated with eliminating the bus stops is minimal and long term there will be savings as these are less signs, poles and bus stop pads that will need replacing in the future.

Executive Recommendation:
Recommend approval.
