Ground Signs

Art represents approximation of sign appearance.
 Ground sign to be installed on new foundation.
 Exact location of sign to be determined. Final location of sign subject to municipality approval.
 Ground sign recommendation/pricing assumes installation in earth, without obstructions, on level grade.
 Dealer to locate private utilities, and identify location.
 Attempt to install ground sign on existing foundation, this requires a survey to confirm adaptability, approval by an engineer(s), and municipality. Dealer to provide 120-volt, 20-amp dedicated circuit to sign.
 If an engineer alters quoted signage a change order will be provided to the dealer.
 Copy on and placement of any signs, including directional signs, to be verified by dealer.
 Dealer to supply above to GC, architect, and other construction team members.
 Wind – 90 mph, Miles – 1021 Zone – 1.

Exact location of sign to be determined.
 Variances are allowed.
