Hi David,

This would not be a problem given the sprinkler system installation.

Thanks

David,

I don't see an issue with this. The areas are protected and I would assume the garbage and recycling totes are not going to be high pile storage or anything. I would think you would be fine.

Thanks,

David Dewhurst

Dave, the church would like to store their recycling and garbage totes in the north east area of the building that will not be 100% finished out. It will be drywalled with open structure ceilings and concrete floors. From a fire sprinkler stand point do you see any issues with this? Thank you, Dave
