To whom it may concern,

Waukesha County has executed a land lease agreement with Kendal Aviation, LLC for 2741 Aviation Drive for the purpose of constructing an aircraft hangar and are currently negotiating a land lease and operating agreement with JetOut for the same purpose.

I have reviewed the designs for both hangars submitted by Bedford Development and find the concept well suited to the airport and a good use of the available space. My preliminary approval of these designs will be considered for final approval by the Airport Operations Commission on June 14th, 2023.

If you have any questions or require additional information, please let me know.

Sincerely,
