
CARROLL UNIVERSITY ALUMNI

JARYN BEAR, BRIAN RADWAY, TAYLOR USELMANN

AUGUST 15, 2023- PUBLIC ART, CITY HALL GALLERY

Alex Olson, Brian Radway, Jaryn Bear, Taylor Uselmann
The Carroll University Alumni "Art Bruvs"

Nature

The "Art Bruvs" are a group of Wisconsin artists who met during their time attending Carroll University in Waukesha. These 6 friends enjoy exploring many kinds of artistic expression such as painting, drawing, photography, ceramics, sculpture, and more. The passion for their group work stems from several classes taken together at Carroll University and collaborating on diverse projects. This has continued into post-graduate work as the group still meets regularly to enjoy each other's company and be creative together.

In order to create a cohesive series of work the group decided on one central theme for this show, nature. Each artist has chosen a medium to convey nature in a way they find suits their artistic vision. Taylor designed field notes to guide you through a beautiful greenhouse. Brian is showcasing photographs of local animals, some home to the Milwaukee County Zoo. Alex created her pieces with a focus on animals native to Wisconsin. Jaryn's spider web sculptures represent a whimsical take on how light interacts with the natural world around it. They are very excited and honored to showcase their artwork at City Hall in Waukesha, the city where they all met.
