

City of Waukesha Common Council

Waukesha City Hall

Waukesha, WI

Dear Members of the Common Council,

I am writing today to formally express my interest in being appointed to the aldermanic seat for District 11 that has recently become vacant. I have run for this position twice because I care deeply about this community and would like the opportunity to serve the people who live in it.

First and foremost, I have been of service to my community in many ways; from helping people in need to volunteering my time in city events. Octoberfest, Waukesha JamBoree and Waukesha Night Out are just a few of the examples of events I have volunteered my time for. I believe that spending my time doing something that makes a difference is of the utmost importance.

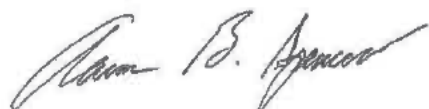

As a resident of the City of Waukesha and an active member of the community; I have made a dedicated effort over the years to understand the ins and outs of our city. From city operations to how decisions impact the residents in my district; I have completed the City of Waukesha Government Academy, the Waukesha County Citizens Academy with the Sheriff's department, as well as the City of Waukesha Citizens Academy through City of Waukesha Police Department. I also held the title of a former Commissioner for the Waukesha Landmarks Commission.

If appointed, I will approach this role with a commitment to thoughtful decision-making, transparency, and representing the best interests of the residents in the City of Waukesha. I have fostered free time into researching the mental health crisis within the city and the need for mental health resources for those who need it. While professionally, I bring over a decade of experience in commercial and industrial construction, currently working with Miron Construction. I also serve as Vice President of Carpenters Union Local 231.

If selected, I will serve with honesty, accountability, and dedication.

Respectfully,

Aaron Spencer
