For Immediate Release:

Notice of Public Hearing for an amended Facilities Plan for Clean Water Plant

A Facilities Amendment Plan was submitted in 2011 to WI DNR for the City’s Clean Water Plant which was the basis for recent plant improvements. That Plan was further amended in 2013 for the inclusion of a return flow pumping station, pipe line, and outfall to receive Lake Michigan drinking water. Serving as another amendment in 2017, a Final Compliance Alternatives Plan was submitted related to phosphorus permit compliance.

An updated amendment to the Facilities Plan relating to refinement of the return flow pump station, return flow pipe line, phosphorus treatment, and improvements at the return flow discharge site was submitted to WI DNR in August of 2018. There will be a public hearing for this 2018 updated amendment plan at the Board of Public Works meeting at 5:30 pm on November the 8th, 2018.
