

BCUBED
MANUFACTURING

Transforming drive-thru
commerce.

The BIGGBY BCubed Story

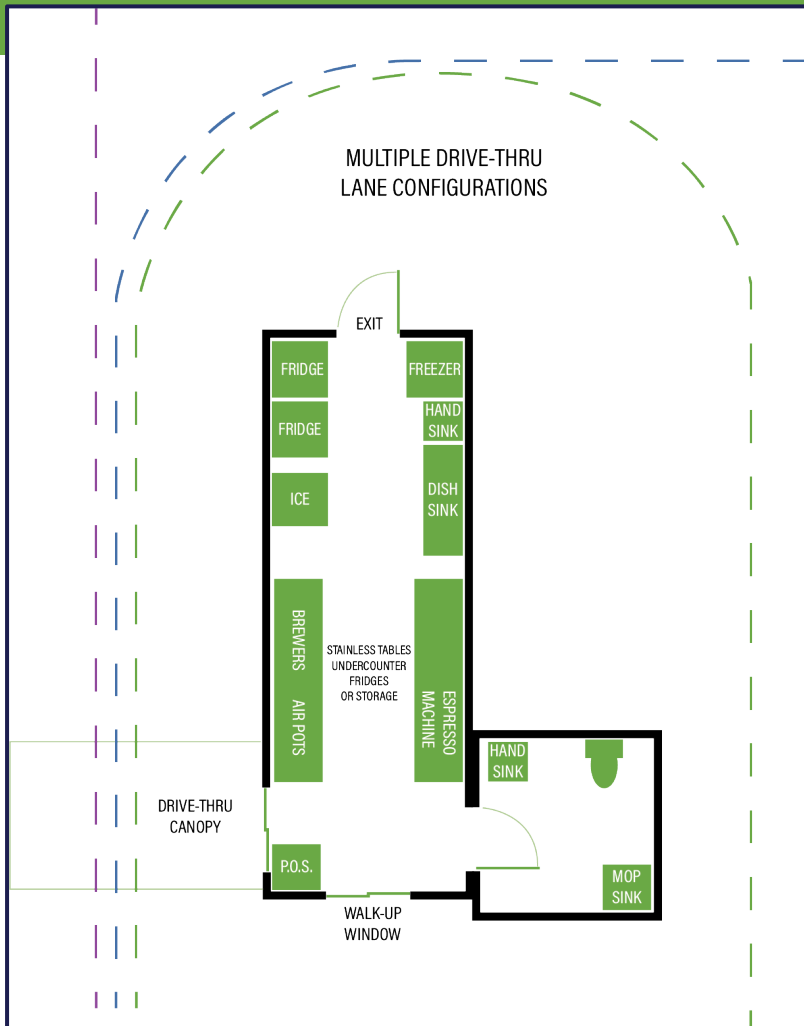

The idea came about when Alpena's traditional store front BIGGBY location couldn't support a drive-thru and owner Jeff Konczak thought it needed one. One day at lunch, he sketched plans for a modular drive-thru facility on the back of a napkin. He then pitched the idea to Bob Fish and Mike McFall, owners of BIGGBY COFFEE. *They loved it!* The first BIGGBY COFFEE **BCubed** franchise was installed in 2018. As of January 2020, there are seven BIGGBY **BCubed** buildings operating.

What is a BIGGBY BCubed?

A **BCubed** is 349 square feet of drive-thru commerce transformation that a BIGGBY franchisee owns. It is a superior quality, standalone, sectional drive-thru building. It is a capital investment that is movable and expandable. Each BIGGBY **BCubed** comes fully equipped with all required BIGGBY equipment (with the exception of the Global Orange POS and Credit Processing). **BCubed** buildings are plug and play as they come pre-plumbed and pre-wired.
