Subject: Summit Credit Union, 2208 E. Moreland Blvd. – Final Site Plan & Architectural Review	

Details:
 This proposal is for a new 3,900 sq.ft. bank building at 2208 E. Moreland Blvd. (former Sonic site), a 49,364 sq. ft. parcel. The bank will include a drive-thru with 3 covered aisles for teller service and an ATM. The proposed architecture is similar in style to other Summit Credit Unions in the area using angled roof lines, lots of glass, dark gray brick, and metal panels. The drive-thru canopy ties in architecturally with the rest of the building. New LED site lighting is proposed with bollards and poles. A generous landscaping plan is proposed with perimeter and foundation plantings and additional plantings now provided along the drive-thru area.
