

# Bridges Library System to offer summer library challenge

WAUKESHA — Bridges Library System announced a summer library challenge highlighting libraries as a place for joy and imagination. The Journey of Dragons: A Library Challenge event will take place this summer at the system's 22 public libraries in Jefferson and Waukesha counties. People are invited to visit the various branches, gather letters and stamps, then piece together passwords for a chance to win prizes. The program will run June 2 through Aug. 29.

"Summer is a fantastic time to visit your libraries, and we encourage everyone to discover the unique offerings each one holds," said Karol Kennedy, director of the Bridges Library System. "While they serve as

centers of incredible materials and services for communities, our Journey of Dragons event also highlights libraries as venues for joy and imagination at any age."

To begin the Journey of Dragons Library Challenge, participants can pick up game materials at any of the 22 participating member library locations. The Elm Grove Public Library and Irvin L. Young Memorial Library in Whitewater are the two libraries in the system that are not participating in the challenge because of special projects or scheduling limitations. At each library, participants will read the game poster, record the letters, get stamped and work to solve the passwords. Solved passwords will earn

prize entry forms. There's up to four chances to win prizes.

The last day to complete the challenge and submit entry forms is Aug. 29. An active Bridges Library System CAFÉ library card is required to be eligible to win. Library cards are free and give borrowing privileges at the 24 libraries in the system and access to shared digital collections. Check with your library for card eligibility. Checking out items is not required, but always encouraged. Only one winner per household will be selected each month of the challenge.
