<b>Subject:</b> Review and act on the proposed 2020 Sanitary Sewer Rates.	

**Details:**  
The City's municipal financial advisor has prepared our annual sewer rate model for the past twelve years. This 2020 model includes a detailed cost of service study for 2020 and an updated long-range cash flow analysis with a revised capital improvement plan. A separate Return Flow cost analysis has been prepared by the Water Utility's rate consultant. The 2020 Sewer Service Charge and Fee Schedule includes both the regular and Return Flow rates, itemized separately.

**Financial Remarks:**  
A sewer rate increase with an effective date of January 1, 2020 is necessary to ensure adequate revenue to fund operations, maintenance and capital improvements for the treatment plant and collection system in the upcoming year. The recommended rate increase supports and maintains the City's 125% debt coverage requirement.

**Executive Recommendation:**  
Approve the proposed 2020 Sanitary Sewer Rates.
