To Whom It May Concern:

I am writing today to bring to your attention a very serious road construction hazard.

On Milky Way, just off of Sunset, in the City of Waukesha, WI, there is an above-ground, elevated platform/ramp obstructing traffic. This ramp covers a large water pipe laying across the road. Construction is to the right of the ramp. The sign directly next to the right of the ramp simply says, "bump."

Clearly this is insufficient signage advising of an impending road obstruction. Are there not standards that a sign should be so many feet before the impending obstruction to allow time to react to the obstruction? I believe there must be!

The ramp covering the water pipe can only be driven over at the slowest speed possible. Even crawling over the ramp at 2 miles an hour, one can only hope damage to the bottom of the vehicle is spared. Add the darkness of night to the equation, and an accident is imminent!

On May 10, 2022, around 10:15 p.m., my son was driving in an unfamiliar area and came upon this elevated ramp across the road. Due to the only sign displayed, he slowed, approaching the "bump." He hit the ramp like hitting a brick wall.

Upon impact, the bottom of his Ford Focus caught the ramp causing major damages to his car to the tune of \$4,500. Damages to the car included the motor mount, front axle, air conditioner/heating unit, radiator and oil pan, to name a few. His car was not drivable after the accident and needed to be towed. A Police report was filed. He was brought to tears after viewing the damages to his meticulously-kept car. Total expenses exceeded \$6,000.

Whoever decided a sign saying "bump" sufficiently addressed this construction area needs their head examined. How about addressing the real problem and sign it appropriately with SLOW DOWN, REDUCE SPEED, STOP, PROCEED WITH CAUTION OR WARNING. I question if "bump" was the only sign available at the time as it clearly misrepresents the obstruction across the road?

Page 2

I am attaching copies of the car damages sustained, the towing bill, the car rental bill and the Police Report, as well as pictures of the ramp. I am hopeful that you will find the construction company liable due to their negligence and cover the damages. This has been a huge inconvenience to say the least. The repairs were very significant and parts were hard to find, taking 49 days to complete the repairs and return the car as a drivable car.

I look forward to your response and hope to see more accurate signs advising to slow down to adequately react to the ramp.

Sincerely,

Jackie Trybula
