The project is one of the Distribution System Projects (DSI) for 2016. We are replacing the existing 12-inch and 10-inch diameter mains installed in 1909 with a 24-inch main. This project is a continuation of the last two Downtown projects and is listed as Segment AC in our Master Planning documents.

At the December 2015 meeting, the Commission approved the project including our labor, construction costs, and the 1% city administration fee for a total not to exceed \$792,600 using the monies budgeted in account #3431.

Recommended Motion: Move to approve the water main replacement unit price contract and 1% city administration fee totaling \$701,290 for the Waukesha Water Utility's portion of the City of Waukesha Public Works contract with Advance Construction, Inc. for the W. Main Street from Clinton Street to N. Barstow Street Utility and Street Improvements.
