USER GUIDE

*SUPPORT FORMAT:

Default format of the USB is FAT32 (suits for 32GB or lower file) or exFAT(64GB or higher).

Warm notes: please format the flash drive to FAT32 before using in speakers, television, printer, car video system, smart TV. Please remember to back up your data prior to any re-format action.

| File System | FAT32 | exFAT | NTFS |
|-----------------------|-------|-------|------|
| Single file>=4GB File | No | Yes | Yes |
| Windows | Yes | Yes | Yes |
| Mac OS X | Yes | Yes | No |

*AVAILABLE CAPACITY:

The actual available capacity for storage is less than what is listed in the products, because some of the listed capacity on a flash storage device is used for formatting and other functions; (e.g.) the actual capacity of 32GB is about 28.5-30GB.
