

# Z4 SECURITY TRAILER

## [ SELF-POWERED HARDWARE - CUTTING-EDGE SOFTWARE ]

LiveView's Z4 (Zone 4) is a video solution that provides advanced surveillance and assists in loss prevention and security in high problem locations (including parking lots, distribution centers and other off-grid areas). LiveView's Z4 integrates seamlessly with any in-store VMS to monitor your properties whenever and wherever you want. This low maintenance trailer is incredibly easy to handle and operate. The Z4 includes:

- 24/7 video recording
- Project time-lapse video
- Highest level cybersecurity
- Strobe and flood light options
- Power consumption management
- Pan/Tilt/Zoom optical camera options
- WiFi p2p links trailer cameras to in-store VMS
- On-demand sound clips and 2-way voice communication
- Cloud-based, live streaming video with no software to install
- iOS and Android apps
- Low maintenance
- Health analytics
- Easy to use
