Notes:						
<ol style="list-style-type: none"> The starting point should be an identifiable point in the field. Confirm if this starting point is marked in the field and what monumentation marks the starting point so the survey could be retraced. Confirm that the full 20 foot public right of way for Friedman Drive and full 66 foot public right of way for W. Main Street is provided to City. Confirm if any found monumentation was located in the vicinity of the survey. Confirm if adjoining right of ways have been formally dedicated. If not, the right of ways should be formally dedicated. The CSM must be approved, and recorded prior to the Building permit being issued. Provide metes and bounds tie to section corner from lot boundary description so CSM boundary can be compared to City cadastral. Confirm that no found monumentation was located as part of survey as appears to be shown on CSM.
