

Waukeshia Café House/*Patio Expansion*

Project Scope

Six years ago, Mr. Mojib Rasuli purchased an old duplex building at 410 Wisconsin Avenue for the purposes of creating a Coffee shop. That was in 2018, and from that point he set out to start transforming the 1920's vintage building into the retail space it is today .

By performing the majority of the work himself, the project took longer than your average remodeling project should. This time ultimately allowed Mr. Rasuli to create a dining environment that is unique to Waukeshia.

As his business has matured, he began to recognize that the typical customer was not a 15 minute turnaround but a 'sit and work on your laptop' type of customer. This soon started to mean that more space was required.

Project Scope

With a tight Site and little area to expand, the owner has opted to add additional outside dining space in front of the Restaurant.

The proposed addition will accommodate more tables and chairs and extend the outside dining experience. The sign that currently exists in the front yard will be located on the West side of the proposed patio mounted at a height of 3'-6" aff. The patio will be located 1'-6" North of the existing gas line which is 12" off the current sidewalk. A landscaped area will occupy the 2'-6" between the sidewalk and the face of the proposed patio.
