Project Narrative

Project: Montessori School – Greenhouse
2600 Summit Avenue
Waukesha, WI

Montessori School of Waukesha is requesting Minor Site Plan Review for a pre-manufactured greenhouse structure on the property. The property is currently developed and is zoned I-1 Institutional.

The greenhouse will be 9' x 28' and will be located between the school buildings just east of the west building. The proposed greenhouse location will allow it to integrate well on the property and complimentary landscaping is proposed around the exterior of the greenhouse. The greenhouse will be used for teaching purposes. A sample image of the proposed greenhouse is shown below.
