To: Parks, Recreation & Forestry Board (PRFB)
From: Melissa Lipska, Parks & Forestry Operations Manager
Date: January 23, 2019

Re: PRFB Agenda Item – Approve the Purchase of a 2019 UniCarrier Compact Forklift

This request is for the final approval to purchase a new 2019 UniCarrier Compact Forklift for \$29,310, less the trade in value of \$4,500 for our 1990 Nissan Forklift, with the net amount of \$24,810.00. This is a similar replacement (size, weight capacity, reach, lift) for what is currently being used. This was sent out to bid in accordance with the finance policies. This forklift meets all specifications as written into the bid. Attached you will find supporting documentation.

Thank you,

Melissa Lipska
Parks and Forestry Operations Manager

- Air Cleaner and Low Coolant Level Warning
- Low Fuel Warning Light

Infinitely Adjustable Tilt Steering Wheel
Hydrostatic Power Steering
Automatic Transmission
Drawbar Pin

Engine	K21 Industrial Engine performs well below the stringent EPA Tier II emission standards. The ECCS (Electronic Concentrated Control System), supported by the VCM (Vehicle Control Module) and ECM (Engine Control Module), provides the perfect balance of Low Emissions, High Performance and Excellent Fuel Efficiency. The Engine/Transmission Protection and Warning System utilizes warning lights and a two-stage RPM reduction to provide extended engine and drive-train life.
Ergonomic Factors	Operator Comfort System provides low noise and vibration levels, minimizing operator fatigue. Adjustable Tilt Steering Column with memory and a Full Suspension Seat with retractable seat belt, adjustable lumbar support, status alarm, and padded hip restraints, for maximum operator comfort.
Hydraulics	Exclusive Single Lift/Tilt Lever for precise control. A large integrated (steel) Hydraulic Tank, with multiple filters, offers improved heat displacement. Hydraulic Load Sensing Valve System provides maximum lifting, lowering speeds for faster operation cycle times
Platinum Features	This Exclusive Compact Pneumatic Model offers unmatched maneuverability and overall flexibility. Automatic Transmission with single speed forward & reverse. Heavy Duty Drive Axle with superb braking and extra-large brake drums, incorporating self-adjusting shoes. Tight Minimum Turning Radius offers maneuverability by design. Five-Piece Overhead Guard design offers protection and component replace ability. U.L. Approved.
Quality/Performance	The Platinum II Series is a reflection of continuing commitment to designing and delivering products of the highest value that incorporate the most advanced technology available in the industry. Backed by years of experience and expertise and offers the Perfect Balance of an Ultra-Low Emission Engine packaged into a High Performance Forklift. The models are assembled and supported by an ISO 9001-2000 Certified Company.
Specifications	Overall Length to Face of Forks: 92.9" Overall Width (standard Tires): 46.3" Overhead Guard Height: 83.1" Turning Radius (minimum outside): 80.7" Travel Speed Forward/Reverse: 10.6 / 10.6 mph Lift Speed - Full Load/No Load: 122.0 / 127.9 fpm Grade Ability Maximum - Full Load/No Load: 28 / 21 tan %
Warranty	BEST IN CLASS BASE WARRANTY PROTECTION! The entire forklift (excluding normal wear items) is covered for 24 Months, unlimited hours. (See warranty certificate dated 11/2014 for details and exclusions.)
