

Petition to Retain Basketball Hoops at Priedeman Park

Petition Summary and Background: Having two or more basketball hoops at Priedeman Park provides access to active, outdoor activity for older children, young adults, and families in the community. The basketball courts are in high use, which demonstrates the demand for this activity. The courts have been a long-standing part of the park and have influenced decisions on homebuying in the area.

Action Petitioned for: Retain a Minimum of 2 basketball courts/hoops within Priedeman Park. Relocation, splitting full court into two half courts, walling in the court, and other accommodations to mitigate concerns while still serving the community is recommended by petitioners. We the undersigned, tax paying members of the community encourage decision makers to retain this community resource.
