

Existing Front of House

The exterior has been long neglected and is quite weathered. Shutters, grids, moldings, gutters, soffits, and fascia will be painted in a Tricorn Black from the historic collection, an example of what it would look like is provided to the right. Original windows will be repaired as much as possible. Those that are beyond repair, five for now, will be purchased from Home Depot (details below and spec sheet following). Several other windows are also beyond repair, but exceeded budget to replace. Windows are aesthetically identical to the ones original to the home.

PROJECT SPECIFICATIONS

PROJECT SPECIFICATIONS	
1	2nd/BED/Windows
