Subject: RE: Material Storage Building (1631 Arcadian Avenue) Plan Modification

Some people who received this message don't often get email from alicia.zewicki@wisconsin.gov. [Learn why this is important](#)

Justin,

After a cursory review of the draft plan modification request for the material storage building, it appears that the department would likely approve the request. If the applicant decides to submit the plan modification request to the department for review, please include the following:

- The applicant's name and address
- A plan sheet with the location of the proposed storage building
- The letter and plan sheet under the seal of a licensed professional engineer as required by NR 500.05(4), Wis. Adm. Code

Please be aware that due to staff shortages, department reviews may take longer than 90 days.

Let me know if you have any questions.

Thank you,

Alicia Zewicki

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Alicia,

Please find attached the first draft of the plan modification for the proposed material storage building (1631 Arcadian Avenue) within the extents of the former Arcadian Avenue Landfill. I have included specifics of the site background and project summary, as well as a summary of our methane assessment and the current design specifications. As we discussed, if it would be possible to be issued a preliminary letter that could be presented to the City of Waukesha Planning Committee stating that exemption would most likely be approved, that would be fantastic. The committee meets on the last day of the month, so if it would be possible to have that as the turnaround for the draft, this would be greatly appreciated. If there is any additional information that could help expedite this process, please do not hesitate to contact us.

Thank you,

Justin Bush
