Re: 1st District Alderman Seat

Your Honorable Mayor Shawn Reilly,

Please accept my resume and cover letter and place my name in consideration vacant 1st District Alderman seat.

As a longtime resident of the City of Waukesha and parent of two young children I take a great interest in the leadership of our community. I believe that I would be able to make a great contribution to the common council in continuing to make the City of Waukesha a place where myself and others will want to live and raise their families.

My son has special needs and my experience with working to get him included with his peers to participate in regular schooling and activities has meant that my family has been very involved with our local schools and athletic groups. This process has been valuable in teaching me how to work with local public services.

I look forward to the opportunities that serving on the common council would offer and would consider it an honor to be chosen to fill this position.

Sincerely,

Darin Bertsch
