Re: Library Pandemic Response

Daily cases in Waukesha County continue to drop and are now below June 2020 when I first started tracking—just under 6 new cases per day on June 3.

On May 15 the mask requirement for the public in the library was lifted and we put up signs recommending use of masks. On June 1 the mask requirement for staff was also lifted, in tandem with all other City departments. Some staff continue to wear masks and some do not.

We are keeping the plexiglass in place at staff service desks, and continue to have no in-building programs. Most seating has been put back in place, and we plan to open 321 Alphabet Square shortly. We will continue to monitor the pandemic.
