

## MEMORANDUM

DATE: January 18, 2017

TO: Dan Duchniak

FROM: Jeff Detro

RE: Approve Back-Up 350 Horsepower Submersible Pump Motor – Additional Information

As a follow-up to the previous memo, we have completed our work with two submersible pump suppliers, have reviewed the options submitted, and offer the summary as listed in the table below.

Provider	Item	Total Cost
Municipal Well & Pump	350 Horsepower (Hp) 2,300volt New Indar Motor	\$68,320.00
<b>Municipal Well &amp; Pump</b>	<b>350 Hp 2,300volt Rebuilt Byron Jackson Motor</b>	<b>\$54,280.00</b>
Layne	350 Hp 2,300volt New Byron Jackson Motor	\$122,071.00

In the past, the Utility has had very good experiences with Byron Jackson motors and the rebuilding process.

It is our recommendation to award this purchase to Municipal Well & Pump in the amount of \$54,280.00 using the funds available in capital account #3250.

Estimated delivery time is 8-10 weeks.

**Recommended Motion:** Move to approve the purchase of one – Rebuilt 350Hp Byron Jackson submersible motor from Municipal Well & Pump, for a cost of \$54,280.00.
