City Administrator Kevin Lahner updated the Board on the Public Works Department and Waukesha Water Utility organizational structure. After several months only one firm responded to the Request for Proposal. Instead, a small committee was formed internally to build upon the good cooperation between the Clean Water Plant and the Waukesha Water Utility. Several items were identified and updated. Study is not going forward. We are looking at improving efficiencies internally. Ald. Payne inquired if we're following what we were going to do in the study. Administrator Lahner confirmed looking are areas where we can enhance cooperation and communication.
