

Fred Abadi,

I am the owner of a three family rental property located at 422 Maple Ave in Waukesha. About six weeks ago I received a notice that the water usage was substantially higher than the same quarter last year. After receiving this I sent a guy that does some maintenance work for me over to see what he could find. He discovered that the outside water faucet on the side of the building was leaking water due to a faulty O ring. I wasn't noticed by the tenants because it was attached to the hose. It was repaired and no longer leaks. On Monday of this week I called the Waukesha Water Department. I hadn't received my bill yet but wanted to know what the total due would be. I was stunned to be told that it was \$1261.25. I explained my situation and she suggested that I write you a letter and see if something could be done. I don't know how I am even going to pay this bill. If you check my history you will see that I have never been late on a bill. Nor have I ever had a situation like this happen to me at my rental.

I am asking you to please make some accommodation on this bill. I am hoping you are willing to work with me on this. Please feel free to contact me with any questions at 414-651-2451. Thank you in advance for your assistance.

Sincerely,

A handwritten signature in black ink that reads "Ron Vezzetti". The signature is written in a cursive, flowing style.
