We hereby propose to furnish, labor, materials, equipment and insurance complete in accordance with the following specifications.

EXTERIOR RESTORATION

Per our walk-thru on 02-19-2024, areas of masonry deterioration around the perimeter of the building have been visually inspected by this contractor. It is my opinion the proper procedure for repair should be as outlined in the following specifications.

TUCKPOINTING OF STONE MASONRY

All exterior lannonstone masonry on the building shall be inspected and tested for soundness. Mortar joints which are visibly loose, eroded or separated from adjoining masonry units shall be cut out to a minimum depth of one inch (1") and as much more as conditions require. After cleaning and flushing with water, joints which have been cut out and all voids in mortar shall be filled with a non-shrinking mortar and finished off with a tooled surface to match existing work as closely as possible. Completed work shall be wet down to insure proper curing of the mortar. NOTE: hairline cracks in mortar shall not be deemed defective and are not included in the quote.

RELAYING OF LOOSE OR MISSING STONE VENEER ON HANDI-CAP RAMP WALL MASONRY

All loose or missing stone veneer at the handi-cap ramp wall on the south elevation shall be removed. After proper preparation of areas where stone have been removed, stone shall be relayed.

UTILITIES

It will be the responsibility of the property owner or Management Company to secure working electrical facilities. Should power interruption be necessary, the tenants and the property owner and or managers will hold harmless Holton Brothers, Inc. from all claims resulting from power interruption. Interruption is necessary at times because OSHA requires that there be a 20' clearance between workers and live electric wires. The Electric Company will move the wires, if necessary and charge the owner. For underground digging or any related excavating, it will be the responsibility of the property owner or Management Company to contact Diggers Hotline to verify location of wires prior to Holton Brothers proceeding with the work. It will also be the responsibility of the property owner or manager(s) to notify tenants and local utilities of any need to interrupt power services. The tenants and the property owner and or managers will hold harmless Holton Brothers, Inc. from all claims resulting from power interruption.
