Review and act on Amendments to City Codes 13.055 and 13.056	

Details:
City codes 13.055 and 13.056 regard solid waste and recycling management for residential and non-residential properties, respectively. The proposed amendments to the codes are updates and clarifications of the services to better reflect current operations. Furthermore, the city's residential solid waste and recycling contract expires in early 2025 and thus the department will be conducting a Request-for-Proposal process in early 2024 in order to procure the next contract. Updating these respective city codes positions the city to effectively enter the RFP process.

Options & Alternatives:
Not update. The current Codes would continue to not align with the current contractual intent and services.

Financial Remarks:
The proposed amendments do not increase the cost of the current service.

Executive Recommendation:
Approve amendments as submitted to revise City Codes 13.055 and 13.056.
