Development Review Submittal Requirements

PLAN COMMISSION CONSULTATION SUBMITTAL REQUIREMENTS AND ADDITIONAL INFORMATION

A Plan Commission Consultation may be submitted for review and comment for the owner/developer to ascertain the feasibility of a proposed project. A consultation is not required but may be submitted in advance of an actual submittal for a preliminary plat, CSM, Planned Unit Development, rezoning, conditional use or site plan. The Plan Commission will only provide feedback, no approvals will be given. Prior to applying for a Plan Commission Consultation you must discuss your project with the Planning Division to determine if a Plan Commission Consultation is recommended.

Review Time: Approximately 30 days

Reviewing Departments: Community Development Planning Division, Public Works Engineering Division, Fire Department, Water Utility.

Reviewing Boards: Plan Commission (optional)

In addition to this application and corresponding application fee you will also need:

- One (1) digital (PDF) copy of the plans you want conceptual review of
- Attachment A: Development Review Checklist. You should also review all other corresponding checklists that relate to the project that you are seeking conceptual review of and include as much information as possible.
- Cover letter outlining project details.

TRAFFIC IMPACT ANALYSIS SUBMITTAL REQUIREMENTS AND ADDITIONAL INFORMATION

A Traffic Impact Analysis is required for projects that meet certain criteria. Please refer to the Developer's Handbook Section 4.4 to determine if your project requires a Traffic Impact Analysis

Review Time: Approximately 30 days

Reviewing Departments: Public Works Engineering Division

Reviewing Boards: None, however the Plan Commission may require a copy as part of site plan review process.

In addition to this application and corresponding application fee you will also need:

- One (1) digital (PDF) copy of the Traffic Impact Analysis

PRELIMINARY SITE PLAN & ARCHITECTURAL REVIEW SUBMITTAL REQUIREMENTS AND ADDITIONAL INFORMATION

Preliminary site and architectural plans are required for any new residential development with 4 or more units and all non-residential developments. Preliminary site plan approval is also required for additions or modifications to existing developments and projects where a stormwater management plan is needed. Preliminary approval is required unless it is determined by City staff in the Pre-Application meeting that the project only needs Final Site and Architectural Review.

Review Time: Approximately 30 days (45 if Common Council review is needed)

Reviewing Departments: Community Development Planning Division, Public Works Engineering Division, Fire Department, Water Utility.

Reviewing Boards: Plan Commission. Common Council and Board of Public Works review may be required for certain projects.

In addition to this application and corresponding application fee you will also need:

- One (1) digital (PDF) that includes of items listed below
 - Cover letter outlining project details.
 - Color architectural elevations of all sides of the building and color perspective renderings

 - Attachment A: Development Review Checklist
 - Site Plan (see Attachment B: Engineering Plan Checklist)
 - Grading Plan (see Attachment C: Site Grading and Drainage Plan Checklist)
 - Stormwater Management Plan (see Attachment D: Stormwater Management Plan Checklist)
 - Utility Plans (see Attachment H: Sewer Plan Review Checklist)
 - Any other attachments as applicable.

FINAL SITE PLAN & ARCHITECTURAL REVIEW PLAN SUBMITTAL REQUIREMENTS AND ADDITIONAL INFORMATION

Final site and architectural plans are submitted only after the Plan Commission has approved Preliminary Site Plans for any new residential development with 4 or more units and all non-residential developments, including modifications to existing developments. Some projects may bypass Preliminary approval but only if it is determined by City staff in the Pre-Application meeting.

Review Time: Approximately 30 days (45 if Common Council review is needed)

Reviewing Departments: Community Development Planning Division, Public Works Engineering Division, Fire Department, Water Utility.

Reviewing Boards: Plan Commission. Common Council and Board of Public Works review may be required for certain projects.

In addition to this application and corresponding application fee you will also need:

DPW Salt Storage Building

Project Narrative:

The City of Waukesha's Dept of Public Works has a planned new location for a Salt Storage building on the southern geographical area of the City. The site on Executive Place was chosen because of its central location for access, travel and mileage reduction for City vehicles, and for the current zoning and availability. It is expected to have as much as 6000 tons of salt storage capacity.

The City negotiated a sale of land with the existing owner (MLG) for the property. This site is also adjacent to and is part of existing stormwater management ponds that the City maintains.

The existing wetlands present was delineated by a Wisconsin DNR Preferred Delineator whose report and delineation is automatically accepted by the DNR. The proposed building's location was based on this Preferred Delineator's findings.

The Proposed Salt Storage building project consists of removal and stockpiling of the existing topsoil, grading of the lot to the proposed elevations, placing a gravel and stone pad, erecting the proposed buildings, paving the proposed drive entrance and truck turning areas, planting the required landscaping buffers and finishing the building for its intended use.

The building itself consists of a waterproof fabric shell over a steel truss structure with a 10-foot precast concrete base wall and footings. The adjoining Loader storage building will be similarly constructed. The buildings will have hung lights and the loader building will be heated. Large overhead doors will allow access for equipment and trucks.

The total project area is approximately 0.95 acres with a disturbed area of 0.70 acres minimizing the amount of impacted area and maintaining the required wetland setbacks.
