4. Discussion and Recommendation re:

A. [ID#18-1308](#) Please approve installation of an All Way stop at the intersection of Arcadian Avenue and Oakland Avenue.

Recommendation: Referral was made by Ald. Rodriguez. Residents in the area have requested an All Way stop on Arcadian Avenue at Oakland Avenue because there is speeding traffic on Arcadian Ave and no stop condition exists on Arcadian from Hartwell to Les Paul. Engineering staff has collected traffic data at this intersection and also collected speed data on Arcadian Avenue. The traffic data shows that an All Way stop condition can be warranted for this intersection. However, that does not mean that one should be installed. Engineering staff is concerned about the westbound drivers coming "down-hill" to the intersection and being able to recognize a stop condition and stop in time. Engineering does not favor installing an All Way stop unless some additional device, such as a speed feedback sign is installed to bring down the 85th percentile speed for the westbound downhill direction. It should be noted that this intersection is also a school crossing.

Sponsors: Rodriguez

- B.** [ID#18-1309](#) Please approve modifications of the existing Deaf Child signing on S. Grand Ave. to be southbound starting at 1712 S. Grand Ave. and northbound starting at 1827 S. Grand Ave.
- Recommendation:** Referral was made by Ald. Manion. A resident with a deaf child is requesting the existing sign that exists on northbound Grand Avenue be moved to cover the area of their residence. Engineering staff does not have an issue with this other than the southbound direction does not currently have any signing and Deaf Child signs should be installed for southbound as well.

- C.** [ID#18-1310](#) Please approve modifications to existing No Parking Any Time on the west side of N. Grandview Blvd. to be from the northwest corner of Madison Street to 200 feet north.
- Recommendation:** Referral was made by Public Works in response to the resurfacing of N. Grandview Blvd and Madison Street. The resurfacing and replacement of the traffic signal at the intersection necessitated modification to left turn lanes and lane alignment. Where the lanes have changed to push traffic closer to the curb, parking is no longer allowed. This item describes changes to the parking zone and to prohibit parking in locations where it is in conflict with adjacent traffic.
