Subject: Street Opening Prices for 2015	

Details:
Every year the Engineering division updates prices charged to contractors for permanent repair of excavations in the City right of way. These prices are an average of all bids received for sidewalk, asphalt and concrete replacement. The average is used because we collect money in 2015 for repairs that will be bid in 2016. Therefore this is really just an estimate.

Options & Alternatives: City crews could do this work at a greater cost to contractors and property owners in Waukesha.

Financial Remarks: This a revenue item as the money charged are placed in account number 8001.43260
This price is the price that the Engineering Department charges permit holders in 2015 for work that will actually be repaired in 2016, therefore there is the increase in revenue can not be estimated.

Executive Action: Recommend approval to the Common Council
