RE: 456 W. Main Street, Waukesha, WI

Dear Mr. Grall,

We have been ordered by the City of Waukesha Building Inspector's office to make needed masonry repairs to the rear of our building located at 456 W. Main Street. In order to comply we need access to the property from the Riverwalk.

We have retained Holton Brothers, Inc. which, due to the building's height, will need to use a 45-foot aerial lift. They would like to begin work the week of May 23, 2022. The estimated time for repairs is 4 weeks, weather permitting.

We are requesting permission to access and use the Riverwalk during said period and, in the interest of public safety, permission to close public access to the Riverwalk during reconstruction. Thank you for your consideration.

Sincerely,

Marcus B. Felker

MBF/lsv
