City of Waukesha Cover Sheet

Committee:	**Meeting Date:**
ITB	November 6, 2025
ID Number:	**Ordinance/Resolution Number (if applicable):**
Name of Submitter:	**Target Next Board/Council Meeting Date:**
Chief Daniel Thompson	November 18, 2025
Agenda Item Title:	
Acceptance of Service Agreement with Peregrine	

Issue Before the Board/Council:

Requesting approval for the Waukesha Police Department to enter into an agreement with Peregrine for the installation of information-sharing software for use by officers. The agreement allows usage of the software at no cost until the state disburses the two-year funding grant award to the city of Waukesha. See attached service agreement section (service fee) for further information. The Waukesha Police Department is one of 30 agencies in Southeast Wisconsin to participate in this grant awarded by Wisconsin State Legislators.

Options & Alternatives: The goal is to showcase case studies to legislators to secure additional funding for law enforcement agencies statewide before the active grant concludes. If additional grant funding does not occur, the Police Department will coordinate with IT to identify the best solution to move forward with the possibility of terminating use of Peregrine Technology

What is the Strategic Plan Priority this item relates to:

Peregrine software aligns directly with the City of Waukesha's 2024–2029 Strategic Plan by advancing its core priorities of safety, innovation, and service excellence. It supports the "Service in Excellence" goal by enabling real-time data sharing, streamlined investigations, and faster, intelligence-led decision-making that improves the quality and responsiveness of police services. Under "People-Centered Development," the software enhances public safety and transparency, helping build trust between the police and community through proactive crime prevention and collaborative partnerships. Peregrine also advances "Financial Sustainability" by reducing duplication of work, improving efficiency, and maximizing existing resources

through data integration and automation. Its use of modern technology fulfills the plan's call for innovation and modernization across city departments. By strengthening coordination across jurisdictions and agencies, Peregrine directly supports the city's commitment to safety and security as foundational to community well-being. Finally, the platform fosters engagement and collaboration, aligning with the "Engaged Community" priority by promoting open communication, accountability, and shared problem-solving.

What impact will this item have on the Strategic Plan Priority?

Implementing Peregrine software will significantly advance the City of Waukesha's strategic goal of enhancing public safety through innovation and efficiency. It will improve real-time information sharing and situational awareness, allowing officers to make faster, data-driven decisions that protect the community. The software supports the city's commitment to financial sustainability by reducing redundancy, improving workflow efficiency, and maximizing the use of existing resources. It aligns with the goal of providing excellent service by enabling more effective responses and proactive crime prevention. Additionally, it strengthens community trust through greater transparency and collaboration across agencies. Overall, Peregrine directly advances the city's vision of a safe, connected, and forward-thinking community.

Financial Remarks: No cost to the department or city in accepting the agreement
