Subject: Sidewalk Plan – Review a draft of the Sidewalk Plan for the City of Waukesha. This plan is intended to help guide the City, including the Plan Commission, in determining where sidewalk should be required when reviewing development plans through a prioritization of missing sidewalk throughout the City	

Details:
As requested by the Plan Commission, the Community Development Department and the Public Works Department have prepared a draft sidewalk plan for the City of Waukesha. Through the process, a complete inventory of sidewalk along the public streets was created. Staff then identified missing sidewalk, established criteria to rank the areas of missing sidewalk and assign a priority level to the need for new sidewalk where missing. Staff also reached out to all of City Aldermen, to offer an opportunity to meet on the plan as it neared completion and provide feedback and comments, especially as it related to their district. This will be an important tool to guide City staff, the Plan Commission, Board of Public Works, and Council in future decisions about sidewalks and when they should be installed. Besides presenting to the Plan Commission, this plan will be presented to the Board of Public Works for recommendations for approval to the Council, where it could then be adopted.
