10. Provide a brief description of your experience in managing a similar project.

Waukesha Parks, Recreation & Forestry (WPRF) has many years of experience managing grants. Our WPRF Senior Activity Coordinator position was made possible through CDBG funding. This position’s involvement is essential in our efforts to meet the yearly and ongoing goals set forth by the partners and WPRF Senior Board for the past 15 years. In addition to seniors, WPRF also wrote and received CDBG grants to help support youth services. WPRF utilizes numerous community partnerships and grant dollars to support children’s development and reduce obstacles to overall success.
11. Describe the role specific staff will have in this project. Who will be responsible for managing the project,

reporting to Community Development, preparing invoices, etc.?

Mark Thompson, Recreation Supervisor, will be responsible for managing the project, reporting to Community Development and preparing invoices. Mark Thompson, Recreation Supervisor; Cheri Schober, Senior Activity Coordinator; and the Waukesha Parks, Recreation and Forestry Board will help assess needs, set goals, review the budget, and analyze the success of the program.

12. Provide a concise description of the proposed project.

The City of Waukesha must respond to and adapt to the ever-changing and growing senior population in our community. The need for health, social, educational and recreational services provided at low costs and access to these programs is vital for a healthy community. As health, fitness and lifestyle changes, many aging adults are participating in recreational activities at ages well past those in previous generations. A comprehensive senior program is primarily based at the Schuetze Recreation Center in Frame Park, a multi-generational center with an emphasis on senior activities. The program is successful due to the collaborative efforts of many community partners who provide senior services. City of Waukesha Parks, Recreation and Forestry Department (WPRF), Aging and Disability Resource Center (ADRC), and Waukesha Housing Authority work together to provide quality services to Waukesha residents 60 years and better. The ongoing purpose of the senior services is to: 1) Expand senior's access to services related to Independent Living Issues. Recreation opportunities enhance active living and can help limit the onset of disease and impairment normally associated with aging. WPRF wellness opportunities help seniors lead independent and satisfying lives as they remain mobile, flexible and challenge themselves cognitively. 2) Provide health, social, educational and recreational programs to meet the changing needs of seniors of all age categories. Recreation activities provide socialization opportunities and help keep seniors active in the community. Seniors who live alone are often cut off from the community mainstream, losing their purpose for being and retreating into their homes, thus increasing health risks. Seniors involved in recreation programs have reduced feelings of alienation and loneliness and increase intergenerational understanding. 3) Formally track participation levels of "open or drop-in programs". WPRF tracks participation as one determinate of community reach. 4) Collaborate with outreach programming at Waukesha Housing Authority facilities. WPRF partners have discussed the extreme need in low-income housing units. Many of these seniors are living in isolation as identified by Housing and Urban Development staff. 5) Continue to collaborate with ADRC and other agencies in efforts to maintain and increase informational outreach. WPRF Senior Activity Coordinator connects partners by traveling to each site bi-monthly to exchange brochures and other informational literature.

Additional Goals – 2023: 1) Continue to develop the History Club in cooperation with the Waukesha County Historical Society and Museum. 2) Partner with the Waukesha Metro and ERA's to providing a seminar on Senior Transportation. 3) Continue program outreach at senior housing facilities to engage senior volunteers and promote WPRF Programming. 4) Evolve our partnership with the Waukesha County Aging, Disability and Resource Center to provide ADRC offerings/seminars in the Schuetze Recreation Center 5) Continue to expand active older adult programming with a focus on health and wellness. 6) Continue to increase volunteerism amongst seniors 55 and better to keep program cost low and seniors engaged.

Historic Preservation of residential or commercial properties. Must be designated on a spot slum and blight basis or homeowner or business must qualify as low income.

17. Describe the need filled for your program or project.

In Waukesha County 19.2 % of the population is age 65+ (13.6 % of the City of Waukesha population is 65 older) in 2040 it is predicted the Waukesha County population age 65+ will nearly double. The City of Waukesha must respond to and adapt to the ever-changing and growing senior population in our community.

The need for health, social, educational and recreational services provided at low costs and access to

these programs is vital to enhance active living and can help limit the onset of disease and impairment normally associated with aging. WPRF wellness opportunities help seniors lead independent and satisfying lives as they remain mobile, flexible and challenge themselves cognitively. Recreation activities also provide socialization opportunities and help keep seniors active in the community. Seniors who live alone are often cut off from the community mainstream, losing their purpose for being and retreating into their homes, thus increasing health risks. Seniors involved in recreation programs have reduced feelings of alienation and loneliness and increase intergenerational understanding. WPRF does not receive Scholarship forms for seniors as they are “too proud” to ask. CDBG funds allow us to offer free/reasonable programs to seniors which reduce the financial barriers. WPRF partners have discussed the extreme need in low income housing units. WPRF has experienced success in increasing program involvement from residents at the Saratoga low-income housing unit. Many of these seniors are living in isolation as identified by Housing and Urban Development staff. CDBG funding affords the Senior Activity coordinator the opportunity to connect partners by traveling to each site once a month to exchange brochure and other informational literature and provide much needed services and programs.

18. Describe two anticipated measurable outcomes for your proposed project and activities.

1. Seniors 62+ will increase involvement in WPRF programs: WPRF will experience a 5% increase in seniors served as measured through MaxGalaxy Registration System.
2. 95% of Seniors 62+ report increased socialization and friendship as a result of programming as measured through surveys.
3. 95% of Seniors 62+ report improved health as a result of involvement in programming as measured through surveys.
4. 95% of seniors 62+ report increased knowledge and awareness of resources as measured through surveys.
5. WPRF will experience a 5% increase in volunteerism amongst seniors as measured through volunteer participation records.
