RE: Reimbursement Resolution for Safe Drinking Water Loan Application

As you know the construction project on Main Street, N West Ave to Clinton, is eligible to receive money from the Safe Drinking Water Loan Fund. The 2015 Budget assumed the project would be funded in this manner. The interest rate on our last Safe Drinking Loan was 1.925%.

The timing of this project is such that we will be spending money before we receive the loan. As a result we are required to secure a Reimbursement Resolution from the City's Common Council. The resolution allows us to spend working capital and then reimburse our general fund with the loan proceeds.

Based on the bid opening on January 16, 2015, the current estimate for the project is \$877,112.

I am proposing that the Water Commission endorse the attached resolution so that it can be considered by the City's Finance Committee on February 24th and the City's Common Council on March 3rd.

Recommended Motion: Move to authorize the attached Reimbursement Resolution for \$877,112 in order to secure funds from the Safe Drinking Water Loan Program.
