Subject: Install crosswalk paddle on W. St. Paul Avenue at the mid-block crossing to GE Power. Said crosswalk paddle will be paid for and maintained by GE Power. Paddle installation is only for the current owner and will be removed in the future if ownership changes.	

Details:
This item was referred by Public Works. The facilities manager for GE Power had asked if the City would approve the installation of a cross-walk warning paddle (sign) to be placed on W. St. Paul Avenue at the main crosswalk near their main entrance. They feel that addition of this sign will offer more visual queue to drivers that a crosswalk is present. Staff informed GE that they would have to pay for, install and maintain this crosswalk. They agreed to those terms. Department of Public Works does not see any issues with approving this request.

The Committee voted unanimously to approve this item.

Options & Alternatives: None.

Financial Remarks:
If approved, there will be no cost to the City since GE has agreed to pay for it and maintain it.

Executive Action:
If approved by Council, the resolution for approving the installation of these signs will need to be executed by the Mayor and Clerk after the Council Meeting.

Committee Recommendation:
The Buildings and Grounds Committee approved this item at their July 31, 2017 meeting. This item will appear under the Consent Agenda for the August 15, 2017 Council meeting.
