City Engineer, Alex Damien, spoke to the issues on the Barstow project regarding Discount Liquor. The parking lot to the north of the building has two driveway approaches. The drive off Barstow St. is within 15' of the intersection of Corrina Blvd. and Barstow St. This movement creates challenges at this intersection because of the Riverwalk and Discount Liquor store. There is no handicapped ramp at this crossing. The plan is for the driveway on Corrina Blvd. to be widened and will provide access for parking and loading. The parking and loading in front of Discount Liquor for deliveries will still be accommodated and a loading zone may be added to coordinate deliveries.

Dr. Abadi, Director of Public Works, stated we always recommend what we believe in our professional opinion is truly best for the City. We truly believe that the crossing and the way we designed it is the best to protect around 400 pedestrians that cross that street. As discussed and agreed, we will put this item on the agenda for the B&G Committee to look at it and direct the department to include it in the project. The two issues are: 1) on

street parking loading vs parking restrictions for the business to be able to load and unload, and 2) where should the pedestrian crossing in that vicinity be and, if the B&G Committee decided to remove the crossing that required the driveway to be closed, then we would not close the driveway and would put it where ever the B&G Committee recommended.

A motion was made by Ald. Joe Pieper, seconded by Member Kim Michalowski, that the low bid from State Contractors, Inc., for the Barstow Street and Riverfront Street Utility and Street Improvements project be recommended for approval. The motion carried by the following vote:

Aye: 4 - Kassens, E. Payne, Pieper and Michalowski
