

13.055 Ordinance Summary of Changes

Process and Requirement Changes

- Defining dwelling unit per Municipal Code 22.05(64) and adding it to the definition of Eligible Property.
- Add section under “Special Eligibility Rules” to allow the department the discretion to deem eligible properties as non-eligible in the circumstances of accessibility, insufficient space for Carts, interference with street parking, the properties being better served by a dumpster, or other reasons related to the general health, safety, and welfare of City residents.
- Allow removal time to be extended to end of day after the collection date to allow for missed pickups and realistic enforcement on timing issues.
- Add information under “Initial Cart Delivery” to reflect the non-standard size carts fees.
- Change cart ownership from contractor to city.
- Define cart exchange as after initial delivery.
- Define process for acquiring additional carts to be handled directly through the contractor.
- Remove section 13.055 (9) which prohibits scavenging of items on terraces as it is in direct conflict with 8.02 (11).

Administrative Changes

- Moving section “Parcels in Central Business District” under Eligible Property.
- Defining reasons for manual service such as routing and impracticality.
- Adding “as directed by contractor” to bulky item collection section.
- Remove section on the sunseting of grandfathered properties which was discontinued with the last ordinance update.
- Change cart placement information to reflect the new city carts.
