2017	\$3,149,192.62	\$1,512,661.32	\$4,661,853.94
2018	\$3,621,571.51	\$1,513,024.46	\$5,134,595.97

2019	\$3,913,245.90	\$1,523,788.51	\$5,437,034.41

(y) The Municipality acknowledges that the State reserves the right upon default by the Municipality hereunder to have a receiver appointed to collect User Fees from the operation of the Municipality's Water System or, in the case of a joint utility system, to bill the users of the Municipality's Water System directly.

(z) The representations of the Municipality in the Application are true and correct as of the date of this FAA and are incorporated herein by reference as if fully set forth in this place.

(aa) There has been no material adverse change in the financial condition or operation of the Municipality or the Project since the submission date of the Application.

(bb) The Municipality submitted a water rate application to the Public Service Commission. This water rate application is for Water Rates that shall generate sufficient revenues, together with other funds available to the Municipality, to pay all costs of operating and maintaining the facilities of the Municipality's entire Water System, in accordance with this FAA. The Municipality implemented the Water Rates upon the Wisconsin Public Service Commission's approval of the rate order.

Stats. The security for the Municipality's obligation shall be a pledge of revenues to be derived from the Municipality's Water System, and the Municipality shall agree that, if revenues from the Water System are insufficient to meet annual debt service requirements, the Municipality shall purchase water services in amounts sufficient to meet annual debt service requirements as provided in and set forth in Section 9 of the Municipal Obligation Resolution. The annual revenues net of all current expenses shall be equal to not less than the annual principal and interest requirements on the Municipal Obligations, any Parity Obligations, and any other debt obligations payable from the revenues of the Water System then outstanding, times the greater of (i) 110 percent or (ii) the highest debt service coverage ratio required

with respect to any Parity Obligations, or any other debt obligations payable from the revenues of the Water System then outstanding. As of the date of this FAA, the required debt service coverage ratio is 110 percent; however, this percentage is subject to change as outlined in the prior sentence. The Loan is also secured as provided in Section 3.07 hereof.

Section 3.04. Sale and Redemption of Municipal Obligations

- (a) Municipal Obligations may not be prepaid without the prior written consent of the SDWLP. The SDWLP has sole discretion to withhold such consent.
- (b) The Municipality shall pay all costs and expenses of the SDWLP in effecting the redemption of the Bonds to be redeemed with the proceeds of the prepayment of the Municipal Obligations. Such costs and expenses may include any prepayment premium applicable to the SDWLP and any investment losses incurred or sustained by the SDWLP resulting directly or indirectly from any such prepayment.
- (c) Subject to subsection (a), the Municipality may prepay the Loan with any settlements received from any third party relating to the design or construction of the Project.
- (d) Prepayments of the Municipal Obligations shall be applied pro rata to all maturities of the Municipal Obligations.

Section 3.05. Disbursement of Loan Proceeds

- (a) Each disbursement request shall be delivered to DNR. Each request must contain invoices or other evidence acceptable to DNR and DOA that Project Costs for which disbursement is requested have been incurred by the Municipality.
- (b) The SDWLP, through its agents or Trustee, plans to make disbursements of Loan proceeds on a semimonthly basis upon approval of each disbursement request by DNR and DOA. Such approval by DNR and DOA may require adjustment and corrections to the disbursement request submitted by the Municipality. The Municipality shall be notified whenever such an adjustment or correction is made by DNR or DOA.
- (c) Disbursements made to the Municipality are subject to pre- and post-payment adjustments by DNR or DOA.
 - (1) If the Loan proceeds are not yet fully disbursed, and SDWLP funds were previously disbursed for costs not eligible for SDWLP funding or not eligible under this FAA, the SDWLP shall make necessary adjustments to future disbursements.
 - (2) If the Loan proceeds are fully disbursed, including disbursements for any costs not eligible for SDWLP funding or not eligible under this FAA, the Municipality agrees to repay to the SDWLP an amount equal to the non-eligible costs within 60 days of notification by DNR or DOA. The SDWLP shall then apply the amount it receives as a Loan prepayment.
- (d) The SDWLP or its agent shall disburse Loan proceeds only to the Municipality's account by electronic transfer of funds. The Municipality hereby covenants that it shall take actions and provide information necessary to facilitate these transfers.
- (e) Disbursement beyond ninety-five percent (95%) of the principal amount of the Loan, unless otherwise agreed to by DNR and DOA pursuant to a written request from the Municipality, may be withheld until:

- (1) DNR is satisfied that the Project has been completed in accordance with the Plans and Specifications, and DNR has approved all change orders relating to the Project;
- (2) the Municipality certifies to DNR its acceptance of the Project from its contractors;
- (3) the Municipality certifies in writing to DNR its compliance with applicable Federal requirements (certification must be as prescribed on Exhibit G); and
- (4) DNR certifies in writing to DOA the Municipality's compliance with all applicable requirements of this FAA.

(f) IRS Regulation 1.148-6(d)(1)(iii) applies to project expenditures; it states, in part, "An issuer must account for the allocation of proceeds to expenditures not later than 18 months after the later of the date the expenditure is paid or the date the project, if any, that is financed by the issue is placed in service".

Section 3.06. Remedies

(a) If the Municipality:

- (1) or any authorized representative is not complying with federal or state laws, regulations, or requirements relating to the Project, and following due notice by DNR the Project is not brought into compliance within a reasonable period of time; or
- (2) is not complying with or is in violation of any provision set forth in this FAA; or
- (3) is not in compliance with the Statute or the Regulations;

then DNR may, until the Project is brought into compliance or the FAA non-compliance is cured to the satisfaction of DNR or DOA, impose one (1) or more of the following sanctions:

- (i) Progress payments or disbursements otherwise due the Municipality of up to 20% may be withheld.
- (ii) Project work may be suspended.
- (iii) DNR may request a court of appropriate jurisdiction to enter an injunction or afford other equitable or judicial relief as the court finds appropriate.
- (iv) Other administrative remedies may be pursued.

(b) If the Municipality fails to make any payment when due on the Municipal Obligations or fails to observe or perform any other covenant, condition, or agreement on its part under this FAA for a period of thirty (30) days after written notice is given to the Municipality by DNR, specifying the default and requesting that it be remedied, the SDWLP is provided remedies by law and this FAA. These remedies include, but are not limited to, the following rights:

- (1) Pursuant to s. 281.59(11)(b), Wis. Stats., DOA shall place on file a certified statement of all amounts due the SDWLP under this FAA. DOA may collect all amounts due the SDWLP by deducting those amounts from any State payments due the Municipality or add a special charge to the amount of taxes apportioned to and levied upon the county in which the Municipality is located under s. 70.60, Wis. Stats.

(2) The SDWLP may, without giving bond to the Municipality or anyone claiming under it, have a receiver appointed for the SDWLP's benefit of the Project and the Municipality's Water System and of the earnings, income, rents, issues, and profits thereof, with such powers as the court making such appointment shall confer. The Municipality hereby irrevocably consents to such appointment.

(3) In the case of a joint utility system, the SDWLP may bill the users of the Municipality's system directly.

(4) The SDWLP may declare the principal amount of the Municipal Obligations immediately due and payable.

(5) The SDWLP may enforce any right or obligation under this FAA, including the right to seek specific performance or mandamus, whether such action is at law or in equity.

(6) The SDWLP may increase the interest rate set forth in Section 3.01 hereof to the market interest rate as defined in the Statute and Regulations.

Section 3.07. Security for the Loan In accordance with the terms of the Municipal Obligation Resolution:

(a) as security for the Loan hereunder, the Municipality hereby pledges the revenue to be derived from the Municipality's Water Rates (which is a dedicated source of revenue); and

(b) other than as already pledged to the outstanding Parity Obligations and the Municipality's Waterworks System Revenue Bond Anticipation Note, Series 2018, dated April 2, 2018, the Municipality shall not pledge the revenues, except as provided in Section 11 of the Municipal Obligation Resolution, to be derived from the Municipality's Water Rates or other revenues pledged under Section 3.07(a) above, to any person other than the SDWLP, unless the revenues pledged to such other person meet the highest debt coverage ratio then applicable to the Municipality.

Section 3.08. Effective Date and Term This FAA shall become effective upon its execution and delivery by the parties hereto, shall remain in full force and effect from such date, and shall expire on such date as the Municipal Obligations shall be discharged and satisfied in accordance with the provisions thereof.

ARTICLE IV
CONSTRUCTION OF THE PROJECT

Section 4.01. Insurance The Municipality agrees to maintain property and liability insurance for the Water System and Project that is reasonable in amount and coverage and that is consistent with prudent municipal insurance practices for the term of the Loan. The Municipality agrees to provide written evidence of insurance coverage to the SDWLP upon request at any time during the term of the Loan.

In the event the Water System or Project is damaged or destroyed, the Municipality agrees to use the proceeds from its insurance coverage either to repay the Loan or to repair or replace the Water System.

Section 4.02. Construction of the Project

(a) The Municipality shall construct the Project, or cause it to be constructed, to Final Completion in accordance with the Application and the Plans and Specifications. The Municipality shall proceed with the acquisition and construction of the Project in conformity with law and with all applicable requirements of governmental authorities having jurisdiction with respect thereto, subject to such modifications of Plans and Specifications that alter the cost of the Project, use of space, Project scope, or functional layout, as may be previously approved by DNR.

(b) During construction of the Project, if the Municipality replaces a lead service line in the Water System that results in creation of a partial lead service line due to the private portion of the service line also containing lead, or containing galvanized iron or galvanized steel, the SDWLP shall not provide funding for any Project work on the city block on which the partial lead service line was created.

(c) If a lead service line, including both the public portion and the private portion of the line, cannot be replaced in its entirety all at one time, the Municipality shall supply water filters to any affected homes to minimize any harmful effects. The Municipality shall attempt to replace a service line in its entirety within 45 days of the start of construction on the lead service line. In no case shall the full replacement period exceed 180 days.

Section 4.03. Performance Bonds The Municipality shall provide, or cause to be provided, performance bonds assuring the performance of the work to be performed under all construction contracts entered into with respect to the Project. All performance bonds required hereunder shall be issued by independent surety companies authorized to transact business in the State.

Section 4.04. Completion of the Project

(a) The Municipality agrees that it shall undertake and complete the Project for the purposes and in the manner set forth in this FAA and in accordance with all federal, state, and local laws, ordinances, and regulations applicable thereto. The Municipality shall, with all practical dispatch and in a sound and economical manner, complete or cause to be completed, the acquisition and construction of the Project, and do all other acts necessary and possible to entitle it to receive User Fees with respect to the Project at the earliest practicable time. The Municipality shall obtain all necessary approvals from any and all governmental agencies prior to construction which are requisite to the Final Completion of the Project.

(b) The Municipality shall notify DNR of the Substantial Completion of the Project. The Municipality shall cause to be prepared as-built plans for the Project at or prior to completion thereof.

(c) The Municipality shall take and institute such proceedings as shall be necessary to cause and require all contractors and material suppliers to complete their contracts diligently and in accordance with the terms of the contracts including, without limitation, the correcting of defective work.

(d) Upon Final Completion of the Project in accordance with the Plans and Specifications, the Municipality shall:

(1) certify to DNR its acceptance of the Project from its contractors, subject to claims against contractors and third parties;

(2) complete and deliver to DNR the completed Contract Utilization of Disadvantaged Business Enterprises (DBE) form attached hereto as Exhibit E of this FAA;

(3) prepare and deliver to DNR the completed Federal Requirements Compliance Certification attached hereto as Exhibit G of this FAA;

(4) certify compliance with Section 4.02 of this FAA; and

(5) obtain all required permits and authorizations from appropriate authorities, if required, for operation and use of the Project.

Section 4.05. Payment of Additional Project Costs

(a) In the event of revised eligibility determinations, cost overruns, and amendments exceeding the Loan amount, the SDWLP may allocate additional financial assistance to the Project. The allocation of additional financial assistance may be in the form of a loan at less than the market interest rate, which is established pursuant to the Statute and Regulations. The allocation of additional financial assistance shall depend upon availability of funds, pursuant to the Statute and the Regulations.

(b) In the event that Loan proceeds are not sufficient to pay the costs of the Project in full, the Municipality shall nonetheless complete the Project and pay that portion of the Project Costs as may be in excess of available Loan proceeds, and shall not be entitled to any reimbursement therefor from the SDWLP, or the owners of any bonds, except from the proceeds of additional financing which may be provided by the SDWLP pursuant to an amended FAA or through a separate FAA.

Section 4.06. No Warranty Regarding Condition, Suitability, or Cost of Project Neither the SDWLP, DOA, DNR, nor the Trustee makes any warranty, either express or implied, as to the Project or its condition, or that it shall be suitable for the Municipality's purposes or needs, or that the proceeds of the Loan shall be sufficient to pay the costs of the Project. Review or approval of engineering reports, facilities plans, Plans and Specifications, or other documents, or the inspection of Project construction by DNR, does not relieve the Municipality of its responsibility to properly plan, design, build, and effectively operate and maintain the Project as required by laws, regulations, permits, and good management practices. DNR or its representatives are not responsible for increased costs resulting from defects in the Plans and Specifications or other Project documents. Nothing in this section prohibits a Municipality from requiring more assurances, guarantees, or indemnity or other contractual requirements from any party performing Project work.

ARTICLE V
COVENANTS

Section 5.01. Application of Loan Proceeds The Municipality shall apply the proceeds of the Loan solely to Project Costs.

Section 5.02. Operation and Maintenance After completion of the Project, the Municipality shall:

- (a) at all times operate the Project or otherwise cause the Project to be operated properly and in a sound and economical manner, including proper training of personnel;
- (b) maintain, preserve, and keep the Project or cause the Project to be maintained, preserved, and kept in good repair, working order, and condition; and
- (c) periodically make, or cause to be made, all necessary and proper repairs, replacements, and renewals so that at all times the operation of the Project may be properly conducted in a manner that is consistent with the Project performance standards contained in the Application and the requirements of the Water Diversion Permit (if any). The Municipality shall not, without the approval of DNR, discontinue operation of, or sell or otherwise dispose of the Water System, except for portions of the Water System sold or otherwise disposed of in the course of ordinary repair and replacement of parts so long as the Loan is outstanding.

Section 5.03. Compliance with Law At all times during construction of the Project and operation of the Water System, the Municipality shall comply with all applicable federal, state, and local laws, ordinances, rules, regulations, permits, and approvals, and with this FAA, including, without limitation, the Statute, the Regulations, and the Water Diversion Permit (if any).

Section 5.04. Public Ownership The Municipality shall at all times retain ownership of the Project and the Water System of which it is a part.

Section 5.05. Establishment of Project Accounts; Audits

- (a) The Municipality shall maintain Project accounts in accordance with generally accepted accounting principles (GAAP), including standards relating to the reporting of infrastructure assets and directions issued by the SDWLP. Without any request the Municipality shall furnish to DOA as soon as available, and in any event within one hundred eighty (180) days after the close of each fiscal year, a copy of the audit report for such year and accompanying GAAP-based financial statements for such period, as examined and reported by such independent certified public accountants of recognized standing selected by the Municipality and reasonably satisfactory to DOA, whose reports shall indicate that the accompanying financial statements have been prepared in conformity with GAAP and include standards relating to the reporting of infrastructure assets.
- (b) The Municipality shall maintain a separate account that reflects the receipt and expenditure of all SDWLP funds for the Project. All Loan proceeds shall be credited promptly upon receipt thereof and shall be reimbursement for or expended only for Project Costs. The Municipality shall: permit any authorized representative of DNR or DOA, or agents thereof, the right to review or audit all records relating to the Project or the Loan; produce, or cause to be produced, all records relating to any work performed under the terms of this FAA for examination at such times as may be designated by any of them or their authorized representatives; permit extracts and copies of the Project records to be made by them or their authorized representatives; and fulfill information requests by them or their authorized representatives.

Section 5.06. Records The Municipality shall retain all files, books, documents, and records relating to construction of the Project for at least three years following the date of Final Completion of the Project, or for longer periods if necessary due to any appeal, dispute, or litigation. All other files and records relating to the Project shall be retained so long as this FAA remains in effect. As-built plans for the Project shall be retained for the useful life of the Project.

Section 5.07. Project Areas The Municipality shall permit representatives of DNR access to the Project and related records at all reasonable times, include provisions in all contracts permitting such access during construction and operation of the Water System, and allow extracts and copies of Project records to be made by DNR representatives.

Section 5.08. Engineering Inspection The Municipality shall provide competent and adequate inspection of all Project construction under the direction of a professional engineer licensed in the State. The Municipality shall direct such engineer to inspect work necessary for the construction of the Project and to determine whether such work has been performed in accordance with the Plans and Specifications. Any such work not in accordance with the Plans and Specifications shall be remedied, unless such noncompliance is waived by DNR.

Section 5.09. Tax Covenants

(a) The Municipality covenants and agrees that it shall not take any action, or omit to take any action, which action or omission would result in the loss of the exclusion of the interest on any Municipal Obligations now or hereafter issued from gross income for purposes of federal income taxation as that status is governed by Section 103(a) of the Code or any successor provision.

(b) The Municipality shall not take any action, or omit to take any action, which action or omission would cause its Municipal Obligations to be "private activity bonds" within the meaning of Section 141(a) of the Code or any successor provision.

(c) The Municipality shall not directly or indirectly use, or permit the use of, any proceeds of the Bonds (or amounts replaced with such proceeds) or any other funds, or take any action, or omit to take any action, which use or action or omission would cause the Bonds to be "arbitrage bonds" within the meaning of Section 148(a) of the Code or any successor provision. The Municipality hereby further covenants to ensure that all amounts actually received by such Municipality from the SDWLP are advanced within three Business Days to the entity submitting the invoice (or to reimburse the Municipality) to which each amount relates, and that all amounts actually received by such Municipality from the SDWLP shall not be invested in any interest-bearing account.

(d) The Municipality shall not use (directly or indirectly) the proceeds of the Bonds in any manner that would constitute an "advance refunding" within the meaning of Section 149(d)(5) of the Code or any successor provision.

Section 5.10. User Fee Covenant

(a) The Municipality hereby certifies that it has adopted and shall charge User Fees with respect to the Project in accordance with applicable laws and the Statute and in amounts such that revenues of the Municipality with respect to the Project shall be sufficient, together with other funds available to the Municipality for such purposes, to pay all costs of operating and maintaining the Project in accordance with this FAA and to pay all amounts due under this FAA and the Municipal Obligations.

(b) The Municipality covenants that it shall adopt and shall adequately maintain for the design life of the Project a system of User Fees with respect to the Project. The Municipality covenants that it shall, from time to time, revise and charge User Fees with respect to the Project such that the

revenues and funds described in paragraph (a) shall be sufficient to pay the costs described in paragraph (a).

Section 5.11. Notice of Impaired System The Municipality shall promptly notify DNR and DOA in the case of: any material damage to or destruction of the Project or any part thereof; any actual or threatened proceedings for the purpose of taking or otherwise affecting by condemnation, eminent domain, or otherwise, all or a part of the Water System; or any action, suit, or proceeding at law or in equity, or by or before any governmental instrumentality or agency, or any other event which may impair the ability of the Municipality to construct the Project, operate the Water System, or set and collect User Fees as set forth in Section 5.10.

Section 5.12. Hold Harmless The Municipality shall save, keep harmless, and defend DNR and DOA, and all their officers, employees, and agents, against any and all liability, claims, and costs of whatever kind and nature for injury to or death of any person or persons and for loss or damage to any property occurring in connection with or in any way incident to or arising out of the construction, occupancy, use, service, operation, or performance of work in connection with the Project, or acts or omissions of the Municipality's employees, agents, or representatives.

Section 5.13. Nondiscrimination Covenant

(a) In connection with the Project, the Municipality agrees to comply with fair employment practices pursuant to subchapter II of ch. 111, Wis. Stats. This provision shall include, but is not limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Municipality agrees to post in conspicuous places, available for employees and applicants for employment, notices setting forth the provision of the nondiscrimination clause.

(b) The Municipality shall incorporate the following provision into all Project contracts which have yet to be executed: "In connection with the performance of work under this contract, the contractor agrees not to discriminate against any employee or applicant because of age, race, religion, color, handicap, sex, physical condition, developmental disability, or national origin. The contractor further agrees to comply with fair employment practices pursuant to subchapter II of ch. 111, Wis. Stats. This provision shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor further agrees to take affirmative action to ensure equal employment opportunities for persons with disabilities. The contractor agrees to post in conspicuous places, available for employees and applicants for employment, notices setting forth the provisions of the nondiscrimination clause."

Section 5.14. Employees The Municipality or its employees or agents are not employees or agents of the DNR or DOA for any purpose including worker's compensation.

Section 5.15. Adequate Funds The Municipality shall have sufficient funds available to repay the Loan. The Municipality shall have sufficient funds available when construction of the Project is completed to ensure effective operation and maintenance of the Project for purposes constructed.

Section 5.16. Management The Municipality shall provide and maintain competent and adequate management, supervision, and inspection at the construction site to ensure that the completed work conforms with the Plans and Specifications. The Municipality shall furnish progress reports and such other information as DNR may require.

Section 5.17. Reimbursement Any payment made under the Loan to the Municipality in excess of the amount determined by final audit to be due the Municipality shall be reimbursed to DOA within 60 days after DNR or DOA provides a notice of overpayment.

Section 5.18. Unpaid User Fees The Municipality shall, to the fullest extent permitted by law, take all actions necessary to certify any unpaid User Fees to the county treasurer in order that such unpaid User Fees shall be added as a special charge to the property tax bill of the user.

Section 5.19. Rebates The Municipality agrees to pay to the SDWLP any refunds, rebates, credits, or other amounts received for Project Costs that have already been funded by the SDWLP. The SDWLP shall then apply the amount it receives as a Loan prepayment.

Section 5.20. Maintenance of Legal Existence

(a) Except as provided in par. (b), the Municipality shall maintain its legal existence and shall not dissolve or otherwise dispose of all or substantially all of its assets and shall not consolidate with or merge into another legal entity.

(b) A Municipality may consolidate with or merge into any other legal entity, dissolve or otherwise dispose of all of its assets or substantially all of its assets, transfer all or substantially all its assets to another legal entity (and thereafter be released of all further obligation under this FAA and the Municipal Obligations) if:

(1) the resulting, surviving, or transferee legal entity is a legal entity established and duly existing under the laws of Wisconsin;

(2) such resulting, surviving, or transferee legal entity is eligible to receive financial assistance under the Statute;

(3) such resulting, surviving, or transferee legal entity expressly assumes in writing all of the obligations of the Municipality contained in this FAA and the Municipal Obligations and any other documents the SDWLP deems reasonably necessary to protect its environmental and credit interests; and

(4) the SDWLP consents in writing to such transaction, which consent may be withheld in the absolute discretion of the SDWLP.

Section 5.21. Wage Rate Requirements The Municipality represents that it shall comply with Section 1450(e) of the Act (41 USC 300j-9(e)), which requires that all laborers and mechanics employed by contractors and subcontractors funded directly by, or assisted in whole or in part with, funding under this Loan shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor (DOL) in accordance with subchapter IV of chapter 31 of title 40, United States Code.

Section 5.22. Use of American Iron and Steel The Municipality agrees to comply with requirements for Use of American Iron and Steel contained in Public Law 115-141 for products used in the Project that are made primarily of iron and/or steel.

Section 5.23. Federal Single Audit To the extent applicable, the Municipality shall comply with the audit requirements of OMB Circular A-133. The Municipality covenants that if, in a given calendar year, it receives \$750,000 or more of financial assistance that originated from any federal funds, the Municipality shall commission an audit made in accordance with OMB Circular A-133, or in accordance with the federal laws and regulations governing the SDWLP. The Federal Catalogue of Domestic Assistance number is 66.468 for water project disbursements funded with federal money.

Section 5.24. Federal Equivalency Project The Municipality covenants that the Project shall comply with federal requirements applicable to activities supported with federal funds, a list of which is included as Exhibit H of this FAA.

Loan Payment Schedule Comments

The Loan Repayment Schedule on page B-1 is a hypothetical payment schedule that assumes all of the Loan proceeds are drawn on the loan closing date. Since the Environmental Improvement Fund (“EIF”) loans are generally construction loans, the actual total amount of the loan disbursements, as well as the timing of the loan disbursements, will typically not be known until the construction project is complete. At the time the last draw on your Loan is made, the actual Loan repayment schedule can be determined for the remainder of the Loan term. Your Municipality is only charged interest on the amount of the Loan that is disbursed, and the calculation is based on the number of days the Municipality has use of the money.

Please look over the Loan payment schedule so that you are aware of the dates when the interest payments and the principal payments are due. These payment dates are set in the bond/note that is the collateral for your EIF Loan. A final Loan payment schedule will be provided to you when DNR notifies DOA that the Project is complete and the Project is ready to be “closed out”. A Loan payment schedule based on year-to-date disbursements may be obtained by your Municipality or your auditor for planning or reporting purposes. To obtain a Loan payment schedule based on year-to-date Loan disbursements, please go to:

<http://www.eif.doa.wi.gov>

and select the report titled “Loan Payment Schedule”.

If you have any questions regarding the hypothetical Loan payment schedule, please call Katherine Miller at 608-266-2305.

Other loan accounts reports are also available at the above website. Updated information is available on the website the day following a loan disbursement, a loan payment, or other financial transaction that changes the loan balance.

Your EIF Loan Information is Available Online!

The Environmental Improvement Fund has your loan/grant account information available online titled “EIF WebReports” at:

<http://www.eif.doa.wi.gov>

The following EIF WebReports are available:

Auditor Verification Report – Provides the information typically requested by Audit Firms at the end of each calendar year as part of their regular verification process for annual Financial Audits. This report is available for completed calendar years.

Loan Account History – Shows loan disbursements, principal repayments, and the loan balance as of the date that you select for the report.

Loan Payment Schedule – Shows the scheduled principal and interest payments as of the date that you select for the report.

Payment History – Shows the principal and interest payments that have already been made on the loan as of the date that you select for the report.

Disbursement History – Shows both loan **and grant** disbursements that have been made for the selected project as of the date that you select for the report.

Only one WebReport can be run at a time. However, if your municipality has multiple EIF projects, one WebReport can be run for all the municipality’s projects at one time. This can be done by choosing “All” where asked to select a project.

If you need to run multiple reports for a project, just close the window after running the first report; then you will be back at the page where you can select a second WebReport without having to again select the project number or re-enter the “as of” date.

At the top of the WebReports page, there is a link to “Notes about Running EIF WebReports”. Information about a number of fine points related to the WebReports is contained in the Notes section.

The WebReports are available 24 hours a day unless the DOA server is down for maintenance or repairs. The WebReports are set up to allow you to either view the information on your computer screen, print out a copy of the WebReport, or export the file in Excel format.

PROJECT MANAGER SUMMARY PAGE

CITY OF WAUKESHA, SDWLP Project No. 7000-05

1. **Project Description:** The overall scope of this Project is to upsize water main needed to deliver water to downtown Waukesha Water Utility customers at the required level of service; the Project is being constructed in anticipation of a new water supply from the City of Milwaukee. Certain mains in the distribution system need to be replaced to accommodate the changing hydraulics in the system. This specific Project includes replacing approximately 4,300 feet of water main on Main Street from Lombardi Avenue to Manhattan Drive. The new main will be 24-inch ductile iron pipe. Water main will be connected at all existing streets, including Aurora, The Strand, Oakland, Raymond, Greenfield, Adams, Genesee, Cleveland, Ridge Creek Circle, and Manhattan Drive. The Project scope also includes abandoning the existing 6-inch and 8-inch cast iron water main pipes. The Project budget includes force account costs related to application preparation, planning, design review, sub-consultant management, intra-municipal coordination, sampling, testing, and tapping, all of which are eligible Project Costs.
2. **Ineligible Costs:** The Municipality performed other construction work in the Main Street corridor while the street was torn up for water main replacement. The City of Waukesha is using internal municipal funds to pay \$1,798,463 of the construction contract to cover ineligible street, traffic signal, curb and gutter, sidewalk, storm sewer, and sanitary sewer costs. The Municipality divided the bid into 128 items and clearly identified numerous items for which the City will pay all or a portion of the costs out of municipal funds rather than with SDWLP financial assistance. \$20,000 of engineering costs related to these portions are also ineligible.
3. **Other Funding Sources:** The Municipality is using \$1,818,463 of its internal funds to cover costs that are ineligible for SDWLP financial assistance.
4. **Miscellaneous Costs:** As shown in the Project Budget Sheet (Exhibit A), SDWLP funding in the amount of \$715 is included in the Miscellaneous category for administrative fees and permits.
5. **Contingency Allowance:** The Contingency allowance of \$132,300 is five percent of the amount of uncompleted construction work. The Municipality must obtain CME approval of change orders prior to requesting reimbursement.
6. **DBE Good Faith Effort:** There is no DBE participation in this Project. The Municipality made a good faith effort to obtain DBE participation through bid advertisements and requiring bidders to include information with their bids regarding their efforts to establish DBE subcontracts. The contractor made many contacts to DBEs but received either no response, no quote, or too high a quote from each of the DBEs contacted.
7. **Green Project Reserve:** The Municipality indicated there are no Green Project Reserve elements included in this Project.
8. **Use of American Iron and Steel:** This Project is subject to the Use of American Iron and Steel (UAIS) requirements mandated under EPA's Drinking Water State Revolving Fund program.
9. **Federal Single Audit:** This Project is being financed with federal funds and is subject to the Federal Single Audit requirements referenced in Section 5.21 of the FAA. If the Municipality receives more than \$750,000 of money that originates from any federal source in a calendar year, then it must commission a Federal Single Audit as part of its regular financial audit. The Federal Catalogue of Domestic Assistance number is 66.468 for water project disbursements funded with federal money.
10. **Signage:** The Municipality has multiple documents on its website posted prior to construction of the Project and still available on the website at the time of preparation of this FAA, that include references to the fact that the Municipality planned to finance the Project through the Safe Drinking Water Loan Program.
