To: Parks, Recreation & Forestry Board (PRFB)

RE: PRFB Agenda Item - Approve the Purchase of a John Deere Front End Loader

This request is for the final approval to purchase a John Deere Front End Loader with snow plow, through Brooks Tractor, in the amount of \$216,996.00. This replaces an existing front end loader and plow. This was approved as part the 2019 CIP Fleet budget with an original budget of \$225,000. This machine was bid out through the NJPA program, which the City and WPRF have previously utilized. The Department of Public Works is recommending purchase of a wing and associated controls as well, for \$10,985.00, for a total purchase price of **\$227,981.00**. The additional funds will come from savings utilized from other PRF CIP Fleet purchases.

Thank you,

Mike Talaska
Assistant Forestry Supervisor

Brooks Machine Health Monitoring Service

Brooks and John Deere monitor your machine continuously for the term of basic/extended warranty.

- **JDLINK Alerts** - The Brooks Tractor Machine Monitoring Team uses sophisticated software to track and monitor alerts generated from your machines through telematics and JDLINK Machine Connectivity. Diagnostic Trouble Codes (DTCs) transmitted from your Deere machines are sent to the Brooks Machine Monitoring Center where the team can perform remote diagnostics including reading and clearing diagnostic codes, running diagnostic tests, and viewing/analyzing machine performance data.
- **Expert Alerts** - A team of John Deere experts at their Machine Health Monitoring Center in Dubuque, Iowa use data analytics to predict service needs and provide notifications to the Brooks Machine Monitoring Team, which enables them to contact customers about an impending or potential issue and gives them solutions to resolve the issue before it causes a machine problem.
- **Maintenance Alerts** - The Brooks team will also provide you with maintenance alerts before they become due to help with advance planning for the service.
