Shingling and Ornamentation/Stickwork yes

Windows: Repair or replacement? _____
Materials, Other _____

Other Exterior Repairs: _____
Awnings _____
Brickwork/Stonework _____
Cresting _____
Doors _____

Foundation: Extent of repair _____
Tuckpointing _____
Other _____

Porch: Repair or replacement? _____
Front or Side, Rear _____
Ornamentation _____
Finials, Other _____

Miscellaneous: _____
Landscaping _____
Fences _____
Paving/Brick Pavers _____

Our carriage house was hit by a micro-burst in early summer. A large tree fell on the carriage house and caused it to lean significantly. We propose having the lean fixed back to pre-storm condition.

Estimated start date: _____

Estimated completion date: _____

I/We intend/have already applied for the state's preservation tax credits: Yes No
Status: _____

Has owner done any previous restoration or repair work on this property?

No Yes If yes, what has been done?

Are any further repairs or alterations planned for this building for the future?

No Yes If yes, please describe:

E. Criteria Checklist:

REQUIRED FOR ALL PROJECTS

- Photographs of affected areas and existing conditions from all sides
- Historic plans, elevations or photographs (if available)
- Material and design specifications, including samples and/or product brochures/literature when appropriate

REQUIRED FOR ALL PROPOSED NEW CONSTRUCTION, ADDITIONS, EXTERIOR ALTERATIONS, FENCING AND LANSCAPING

- Site and/or elevation plan – to scale
(required for all new construction or proposed additions)

REQUIRED FOR EXTERIOR PAINT WORK

- Color samples (including brand of paint and product ID number) and placement on the structure

REQUIRED FOR ALL LCP&R APPLICATIONS

Provide a detailed cost estimate for these repair(s), based on the number of gallons of paint, the amount of lumber, or the number of panes of glass, etc. Be certain to separate material costs from labor. Include a written estimate(s) if available:

I have read and answered the above to the best of my knowledge, and the information I have supplied is accurate to the best of my knowledge. I agree to supply any relevant documentation that is required for the proper review of this application. If I am applying for a LCP & R, I also agree to do the intended paint and/or repair work, as outlined and proposed above, exactly as described, or I agree to return the entire amount of the grant. I understand that I, or my assistants, must finish the proposed project within one hundred twenty (120) days of the payment of the grant. Compensation for the paint/materials, acquired solely for the repairs specified above, will be paid promptly upon the receipt of the properly written billing, or in a manner to be agreed upon between the owner/renter and the landmarks Commission or its authorized representative(s). Once the proposed paint/repair project has been approved, no changes or alterations in design or color scheme are allowed without the express written approval of the Landmarks Commission or its authorized representative(s). Failure to comply with the above is sufficient cause for the grant recipient to be required to immediately repay the entire grant amount. Any and all disputes which may arise under this agreement, or its interpretation, concerning eligibility, approval, procedures or forfeitures, shall be presented in writing to the Landmarks Commission, by the applicant, within ten (10) days of the dispute. The Landmarks Commission will then make a decision, and notify the applicant of its decision in writing, within ten (10) days of receipt of the letter detailing the nature of the dispute. These decisions will be final and binding.

EXHIBIT A:**The Secretary of the Interior's Standards for the Treatment of Historic Properties, 1995
Standards for Rehabilitation**

To receive a Certificate of Appropriateness, a rehabilitation project must be determined by the Landmarks Commission to be consistent with the historic character of the structure(s) and, where applicable, the district in which it is located. The following Standards are to be applied to specific rehabilitation projects in a reasonable manner, taking into consideration economic and technical feasibility.

1. A property will be used as it was historically or be given a new use that requires minimal change to its distinctive materials features, spaces, and spatial relationships.
2. The historic character of a property will be retained and preserved. The removal of distinctive materials or alteration of features, spaces, and spatial relationships that characterize a property will be avoided.
3. Each property will be recognized as a physical record of its time, place, and use. Changes that create a false sense of historical development, such as adding conjectural features or elements from other historic properties, will not be undertaken.
4. Changes to a property that have acquired historic significance in their own right will be retained and preserved.
5. Distinctive materials, features, finishes, and construction techniques or examples of craftsmanship that characterize a property will be preserved.
6. Deteriorated historic features will be repaired rather than replaced. Where the severity of deterioration requires replacement of a distinctive feature, the new feature will match the old in design, color, texture, and, where possible, materials. Replacement of missing features will be substantiated by documentary and physical evidence.
7. Chemical or physical treatments, if appropriate, will be undertaken using the gentlest means possible. Treatments that cause damage to historic materials will not be used.
8. Archeological resources will be protected and preserved in place. If such resources must be disturbed, mitigation measures will be undertaken.
9. New additions, exterior alterations, or related new construction will not destroy historic materials, features, and spatial relationships that characterize the property. The new work will be differentiated from the old and will be compatible with the historic materials, features, size, scale and proportion, and massing to protect the integrity of the property and its environment.
10. New additions and adjacent or related new construction will be undertaken in such a manner that, if removed in the future, the essential form and integrity of the historic property and its environment would be unimpaired.
