Legislative History

9/30/24	Building and Grounds	held
	<i>Item held</i>	

10/29/24 Building and Grounds recommended for Council Consent to the City Council

Ald. Eric Payne asked what the current control of the intersection is. Derrin Wolford responded to say that Lindbergh Avenue is stop controlled while both directions of Washington Avenue have no control. Ald. Cory Payne mentions a concern with speeding up and down Washington Avenue with much of the traffic being hospital traffic. Ald. Cory Payne's greatest concern is for northbound traffic on Washington Avenue recognizing southbound traffic on Washington Avenue and yielding to those vehicles with how the larger size of the intersection presents sight issues and lane designation issues. Ald. Cory Payne would have liked to see a raised center island similar to what exists at the intersection of Charles Street and Windsor Drive. Derrin Wolford responded to say how it would not be feasible at this time because the intersection in question has heavy trucks that go through the intersection. Ald. Eric Payne mentioned how some truck drivers may prefer going this route compared to going up Mountain Avenue because of Mountain Avenue being steeper. Ald. Cory Payne asked when this part of Washington Avenue may get reconstructed. Derrin Wolford responded to say it would come in the future, but it is currently not in the 5-year program. Ald. Cory Payne then mentioned how creating the traffic circle with pavement marking could make drivers familiar with this configuration for when the future project comes, a raised center island could then be installed. Ald. Eric Payne asked what the estimated cost would be for this. Derrin Wolford responded to say it would be about \$4,300 which would include the pavement marking and signing. Ald. Eric Payne asked if this would be better to implement now or in the Spring, if to be done. Derrin Wolford responded to say that the Special Projects budget would not have enough funding to complete the project this year. Any funds not being used this year could be rolled over to next year with enough funding to complete the project in the Spring.

- B. [ID#24-10989](#) Please perform a traffic study for the increased amount of traffic and speeders on Cleveland Avenue. The area of concern is between Niagara Street and Moreland Boulevard.

Sponsors: Chrisien

Attachments: [24-10989_Cleveland Ave traffic study](#)

- C. [ID#24-11503](#) No parking request from driveway to corner on south side of National Avenue to the corner/crossway of Aurora Street.

Sponsors: Wigderson

Attachments: [24-11503 National Ave no parking](#)

- D. [ID#24-11504](#) Please consider adjusting the posted speed limit on East and West Sunset Drive to be a uniform speed of 35 MPH from Les Paul Parkway to W. St. Paul Avenue. Work with the Village of Waukesha to raise the speed limit to 35 MPH in their section of W. Sunset Drive.

Sponsors: Manion
