Subject: Review and act on proposed purchase of pool liner for Horeb Springs Aquatic Center from RenoSys Corporation.	

Details: The Parks, Recreation & Forestry Department would like to proceed with the purchase and installation of a pool liner for Horeb Springs Aquatic Center. The current pool plaster and caulking has reached the end of its life cycle and needs replacement. Using a commercial pool liner with a stainless-steel skirt would virtually eliminate ongoing maintenance of caulking, and provide a watertight seal within the pool vessel. The pool liner and welds are warrantied for 10 years and have a 10-15 year life expectancy.

Options & Alternatives:
Replaster and re-caulk the pool. This option continues ongoing biannual maintenance/replacement of caulk joints. Warranty varies between contractor but is generally between two and five years. RenoSys is the only supplier of these commercial pool liners.

Financial Remarks:
Complete purchase and installation of the pool liner is $109,910.00. Replastering and caulking quotes were between $167,025.50 and $227,571.00. Funding for this project was approved as part of the 2021 CIP Budget (Aquatic Facility Improvements: 420-5322-68290 – Page 66)

Executive Action:
Recommend approval by Common Council of the proposed quote with RenoSys for supply and installation of pool liner with stainless-steel skirt at Horeb Springs Aquatic Center.

Committee Recommendation:
Approval of the Parks, Recreation & Forestry Board, with recommendation for approval to the Common Council.
