	The Landmarks Commission has been managing Paint and Repair grants for the city since at least the 1990's.

The Landmarks Commission has been managing Paint and Repair grants for the city since at least the 1990's. Administering Paint and Repair Grants is one of the Landmarks Commission's most important functions, along with reviewing and approving exterior work on designated Local Landmark and Historic District properties (Certificates of Appropriateness).

**11.** Describe the role specific staff will have in this project. Who will be responsible for managing the project, reporting to Community Development, preparing invoices, etc.?

The Community Development Department runs the Landmarks Commission Paint and Repair Grant Program. The program administrator is Charlie Griffith, Senior Planner. He will be responsible for project management, reporting, invoicing, etc.

**12.** Provide a concise description of the proposed project.

Paint and Repair grants provide financial assistance to the owners of designated historic properties. Grant amounts are determined by the Landmarks Commission based on a sliding scale guideline. The Landmarks Commission reviews the guidelines on a yearly basis and determines the amount based on the expected total allocation. For 2024 and 2025, the guideline amount has been 15% of the cost of a project, to a maximum of \$3,000.00. Grant amounts can be higher or lower than the scale based on fund availability, project costs, or other factors. Grants are paid after the work has been completed and the applicant has paid their contractors.

In order to be eligible for this program, the Historic properties must also fall within the 'LMI Eligible Areas' as identified by Waukesha County including census tracts 55133202600, 55133202700, 55133202302 and 55133202500.

If the proposed project is a rehabilitation / ADA / historic rehabilitation of a facility or business, please answer the following:

#### 17. Describe the need filled for your program or project.

Click here to enter text.

Paint and Repair Grants provide assistance with renovation, restoration, and general upkeep of designated Local Landmark and Historic District homes. In Waukesha many of these properties are modest houses located in low to moderate income neighborhoods. These homes are attractive to lower income and first-time homebuyers because they are usually smaller, on smaller lots, and are often in need of repairs. The owners of these homes experience higher maintenance and repair costs than other homeowners partially due to the higher standards required by their historic designation, but also just because their houses are old. Paint and Repair Grants help mitigate some of those higher costs.

slum and blight basis or homeowner or business must qualify as low income.

By making renovation and upkeep projects more likely to happen and to happen in a timely and appropriate fashion, Paint and Repair Grants also help maintain the character of the surrounding neighborhoods. Properly maintained homes reduce blight, help make the neighborhood a more desirable place to live in, which in turn stabilizes property values, and can also encourage neighbors to undertake similar work on their own homes. This is true everywhere, but it is especially applicable for properties in Historic Districts, which constitute the vast majority of the city's designated historic homes.

18. Describe two anticipated measurable outcomes for your proposed project and activities.

The most obvious measurable outcome is the number of homes and other historic structures that are rehabilitated using these funds. By providing a matching grant the City is making it more economically feasible to do costly home repairs and restoration. The program also has indirect or "domino" effects. Once one historic property owner completes his/her repairs, their neighbors are frequently induced to paint or repair their homes in order to "keep up." The other measurable outcome is amount of money invested into these projects. Our grant funds often only make up a small percentage of expensive historic preservation projects.

### **Appendix A: Results of Prior Year Projects**

**20.** Was your department able to spend the CDBG allocation awarded within the calendar year? (Provide explanation for any extensions into the next year for 2024-25)

The Landmarks Commission allocated all 2024 funds by the end of the year. As of the end of the year two projects had not been completed, so the funds for those projects, a total of \$2,850.00, were carried over into 2025. Both applicants expect to complete the work this spring. Grants will be paid as soon as they have paid their contractors. Their grants will be kept available for them until all 2025 money has been allocated.

**21.** Has your department had any CDBG funds reprogrammed (taken back) by the CDBG Board? (Explain for 2025)

The Landmarks Commission has not returned any money from Paint and Repair Grants, but has had funds for projects extended into the next calendar year.

#### **Analysis of Impediments to Fair Housing Choice (5 points)**

21. Select the activity or activities below that best show how your municipality is working to alleviate impediments identified in the 2020—2024 Analysis of Impediments to Fair Housing Choice. You **MUST** select at least one.

#### a. Impediment #1: Lack of a regional housing strategy or plan

- 1. Participate at a local or regional level in a housing plan process that expands housing options for low and moderate income people.
- 2. Participate in regional housing mobility programs.

#### b. Impediment #2: Lack of regionally dispersed affordable housing

- Offer financial incentives, or help to connect to incentives like HOME and CDBG, to encourage the development of affordable housing in low poverty/high opportunity areas.
- 2. Encourage proper maintenance of privately owned affordable rental housing.

#### c. Impediment #3: Restrictive local land use regulations and other ordinances

- 1. In municipalities served by sewer service, allow for the development of new single-family and two-family homes on lots of 10,000 square feet or smaller.
- 2. Allow for home sizes less than 1,200 square feet.
- 3. In municipalities served by sewer service, allow for the development of multifamily housing at a density of at least 10 units per acre.
- 4. To support higher density residential development, expand sanitary sewer services consistent with adopted Regional Sewer Service Plans.
- 5. Amend design regulations to promote flexibility in development and construction costs.
- Communities with sewer service should designate recommended Mixed Use
  areas on local land use plan mapping, and provide for multi-family housing
  within Mixed Use zoning categories to increase supply of multi-family housing.
- 7. Adopt inclusionary zoning provisions, such as higher density allowances and a waiver or modification of other development standards where certain set-asides are made for affordable housing for moderate and low-income families.
- 8. Adopt flexible zoning regulations such as PUD and TND to permit higher densities and a mix of housing types.

# d. Impediment #4: Restrictive zoning regulations for group homes and community living facilities

- 1. Review community living arrangements / group home sections of zoning ordinances to determine if the regulations limit development of these facilities and make appropriate changes.
- 2. Consider amending local ordinances to allow community living arrangements to be located less than 2500' feet from another such facility.

# e. Impediment #5: Prevalent "fear of others" exists among residents, including NIMBYism

- 1. Develop a diversity awareness curriculum for staff, and fair housing training for key staff.
- 2. Provide training programs for local leaders, elected officials and general public on the benefits of population and housing diversity.

#### f. Impediment #6: Strong Jobs-Housing-Transit Mismatch

- 1. Encourage development of new affordable and/or mixed income housing near job centers in communities throughout the Collaborative region.
- 2. Facilitate affordable and workforce housing development near existing and planned transportation facilities.
- 3. Provide incentives for affordable housing development, such as density bonuses and fee waivers, to spur development.
- 4. Educate elected officials and local leaders of communities in the Collaborative region about the need for affordable and workforce housing to ensure continued economic growth.
- 5. Designate areas suitable for mixed use development on local land use plan maps. Areas near job centers should be prioritized to provide for a variety of housing types and opportunities to live and work within the same area.

#### g. Impediment #7: Lack of Fair Housing Enforcement and Guidance

- Develop fair housing ordinance to affirmatively state desire to provide equal access to housing. A fair housing ordinance typically includes: a. A definition of the protected classes b. Types of real estate transactions that are subject to the ordinance c. Identification of the entity responsible for receiving fair housing complaints
- 2. Support fair housing enforcement. Consider financially supporting agencies that further fair housing efforts. Host fair housing training in your community. Create and distribute materials on fair housing to landlords and Realtors.

#### h. Impediment #8: Lack of accessible housing for people with disabilities

- 1. Prioritize public funding for housing developments that address the needs of people with disabilities or the elderly.
- 2. Adopt or promote construction design concepts such as universal design (UD) and Visit-ability standards and features in all new housing, including consideration of providing density bonuses or other incentives to encourage such housing.

# i. Impediment #9: Gap in homeownership by racial and ethnic minorities compared to white households

1. Create or support the creation of training/counseling programs to encourage current renters to become homeowners to increase the number of minority households in the region who are homeowners.

### **Appendix A: LMI Qualification**

Select how your project will serve Low and Moderate Income People (Choose one):

- a. Benefit to LMI **individuals** (at least 51% of total beneficiaries of program must be LMI and income information must be gathered from all participants).
- b. **Presumed Benefit** (<u>all individuals</u> served in the program qualify as low income because of the type of population served, i.e.: Elderly, Severely Disabled Adults, Abused Children, Battered Spouses, Homeless Persons, Illiterate Adults, Persons with AIDS, Migrant Farm Workers. Income information does not have to be collected.)
- c. Benefit to an **area** that is primarily residential and is located in an eligible census tract (at least 36% of residents are LMI). See instructions for a list of eligible census tracts. Define area and provide list of census tracts and applicable block groups Please list entire census tract number:
- d. Housing units created to benefit LMI individuals or households (every CDBG funded unit must be occupied by and LMI individual or household).
- e. Jobs created to benefit LMI individuals (1 job must be created for every \$35,000 of CDBG funds invested in project; 51% of all jobs created must be for LMI individuals).
- f. Project serves residents of a **NRSA** and agency is a certified CBDO. Provide name of NRSA. In addition, NRSA activities should be projects and programs that stimulate revitalization of the area, with a particular focus on economic development and housing. Public services are allowed, as long as they correlate with revitalization efforts. \_\_\_\_\_
- g. Project addresses conditions of Slum and Blight on an Area or Spot Basis. Must provide designation of Slum and Blighted area from jurisdiction when contract is signed, and addresses of affected properties.
- h. ADA Rehabilitation of a public facility or public improvement.
- i. Historic Rehabilitation of residential or commercial property. (Project must either address spot slum and blight or the homeowner or business must qualify as low income.)

#### **Analysis of Impediments to Fair Housing Choice (5 points)**

21. Select the activity or activities below that best show how your municipality is working to alleviate impediments identified in the 2020—2024 Analysis of Impediments to Fair Housing Choice. You **MUST** select at least one.

#### a. Impediment #1: Lack of a regional housing strategy or plan

- 1. Participate at a local or regional level in a housing plan process that expands housing options for low and moderate income people.
- 2. Participate in regional housing mobility programs.

#### b. Impediment #2: Lack of regionally dispersed affordable housing

- Offer financial incentives, or help to connect to incentives like HOME and CDBG, to encourage the development of affordable housing in low poverty/high opportunity areas.
- 2. Encourage proper maintenance of privately owned affordable rental housing.

#### c. Impediment #3: Restrictive local land use regulations and other ordinances

- 1. In municipalities served by sewer service, allow for the development of new single-family and two-family homes on lots of 10,000 square feet or smaller.
- 2. Allow for home sizes less than 1,200 square feet.
- 3. In municipalities served by sewer service, allow for the development of multifamily housing at a density of at least 10 units per acre.
- 4. To support higher density residential development, expand sanitary sewer services consistent with adopted Regional Sewer Service Plans.
- 5. Amend design regulations to promote flexibility in development and construction costs.
- Communities with sewer service should designate recommended Mixed Use
  areas on local land use plan mapping, and provide for multi-family housing
  within Mixed Use zoning categories to increase supply of multi-family housing.
- 7. Adopt inclusionary zoning provisions, such as higher density allowances and a waiver or modification of other development standards where certain set-asides are made for affordable housing for moderate and low-income families.
- 8. Adopt flexible zoning regulations such as PUD and TND to permit higher densities and a mix of housing types.

# d. Impediment #4: Restrictive zoning regulations for group homes and community living facilities

- 1. Review community living arrangements / group home sections of zoning ordinances to determine if the regulations limit development of these facilities and make appropriate changes.
- 2. Consider amending local ordinances to allow community living arrangements to be located less than 2500' feet from another such facility.

# e. Impediment #5: Prevalent "fear of others" exists among residents, including NIMBYism

- 1. Develop a diversity awareness curriculum for staff, and fair housing training for key staff.
- 2. Provide training programs for local leaders, elected officials and general public on the benefits of population and housing diversity.

#### f. Impediment #6: Strong Jobs-Housing-Transit Mismatch

- 1. Encourage development of new affordable and/or mixed income housing near job centers in communities throughout the Collaborative region.
- 2. Facilitate affordable and workforce housing development near existing and planned transportation facilities.
- 3. Provide incentives for affordable housing development, such as density bonuses and fee waivers, to spur development.
- 4. Educate elected officials and local leaders of communities in the Collaborative region about the need for affordable and workforce housing to ensure continued economic growth.
- 5. Designate areas suitable for mixed use development on local land use plan maps. Areas near job centers should be prioritized to provide for a variety of housing types and opportunities to live and work within the same area.

#### g. Impediment #7: Lack of Fair Housing Enforcement and Guidance

- Develop fair housing ordinance to affirmatively state desire to provide equal access to housing. A fair housing ordinance typically includes: a. A definition of the protected classes b. Types of real estate transactions that are subject to the ordinance c. Identification of the entity responsible for receiving fair housing complaints
- 2. Support fair housing enforcement. Consider financially supporting agencies that further fair housing efforts. Host fair housing training in your community. Create and distribute materials on fair housing to landlords and Realtors.

#### h. Impediment #8: Lack of accessible housing for people with disabilities

- 1. Prioritize public funding for housing developments that address the needs of people with disabilities or the elderly.
- 2. Adopt or promote construction design concepts such as universal design (UD) and Visit-ability standards and features in all new housing, including consideration of providing density bonuses or other incentives to encourage such housing.

# i. Impediment #9: Gap in homeownership by racial and ethnic minorities compared to white households

1. Create or support the creation of training/counseling programs to encourage current renters to become homeowners to increase the number of minority households in the region who are homeowners.

### **Appendix A: LMI Qualification**

Select how your project will serve Low and Moderate Income People (Choose one):

- a. Benefit to LMI **individuals** (at least 51% of total beneficiaries of program must be LMI and income information must be gathered from all participants).
- b. **Presumed Benefit** (<u>all individuals</u> served in the program qualify as low income because of the type of population served, i.e.: Elderly, Severely Disabled Adults, Abused Children, Battered Spouses, Homeless Persons, Illiterate Adults, Persons with AIDS, Migrant Farm Workers. Income information does not have to be collected.)
- c. Benefit to an **area** that is primarily residential and is located in an eligible census tract (at least 36% of residents are LMI). See instructions for a list of eligible census tracts. Define area and provide list of census tracts and applicable block groups Please list entire census tract number:
- d. Housing units created to benefit LMI individuals or households (every CDBG funded unit must be occupied by and LMI individual or household).
- e. Jobs created to benefit LMI individuals (1 job must be created for every \$35,000 of CDBG funds invested in project; 51% of all jobs created must be for LMI individuals).
- f. Project serves residents of a **NRSA** and agency is a certified CBDO. Provide name of NRSA. In addition, NRSA activities should be projects and programs that stimulate revitalization of the area, with a particular focus on economic development and housing. Public services are allowed, as long as they correlate with revitalization efforts. \_\_\_\_\_
- g. Project addresses conditions of Slum and Blight on an Area or Spot Basis. Must provide designation of Slum and Blighted area from jurisdiction when contract is signed, and addresses of affected properties.
- h. ADA Rehabilitation of a public facility or public improvement.
- i. Historic Rehabilitation of residential or commercial property. (Project must either address spot slum and blight or the homeowner or business must qualify as low income.)

businesses in our central city and low to moderate income areas.

• Money leveraged through grant program: \$15,000 in 2024 grant money was leveraged into \$260,000.75 in

This program continues to be one of most important economic development tools we have to attract and retain

improvements to downtown commercial buildings.

**11.** Describe the role specific staff will have in this project. Who will be responsible for managing the project, reporting to Community Development, preparing invoices, etc.?

The Department of Community Development will be the project manager for this program. We will be the responsible for publicizing the program, working with the businesses on their proposals, reviewing grant applications, verification, and all reporting and invoicing with Waukesha County.

**12.** Provide a concise description of the proposed project.

Over the past several years, many of our downtown properties, as well as the major gateways to downtown, and the area in the vicinity of W. Sunset Drive and S. West Avenue have been neglected and have not received adequate maintenance. In addition, many original facades downtown were redone with unattractive storefronts that do not blend well with the historical architecture still in place. This has created an unwelcome environment when attracting new businesses in this area. In addition, these areas tend to be where small, independent, and locally owned businesses tend to locate. This helps those owners by providing matching funds for upgrading building facades, awnings, and storefront signage. The program is designed to be a matching grant program, so we are leveraging private dollars into upgrading the buildings to enhance these areas. Owners are investing their money to make improvements, along with matching funds from the program.

If the proposed project is a rehabilitation / ADA / historic rehabilitation of a facility or business, please answer the following:

$\square$ Historic Preservation of residential or commercial properties. Must be designated on a spot slum and blight basis or homeowner or business must qualify as low income.

#### 17. Describe the need filled for your program or project.

Over the years, many Downtown, central city and Sunset Drive properties have been neglected and have not been properly maintained. In addition, in the mid-1900's, many of the original facades downtown were redone with unattractive storefronts that do not blend in cohesively into the historic downtown. Many businesses that are located downtown, tend to be small, independent businesses with limited resources and funds. Typically, the interior renovations and upgrades take priority when a new business moves in. This program provides funds to assist business owners so they can make improvements to the façade, awnings and signage.

**18.** Describe two anticipated measurable outcomes for your proposed project and activities.

The two measurable outcomes are:

- 1. The number of businesses and buildings that are rehabilitated with the funding. This includes the e façade, awnings or any signs that are installed.
- 2. Amount of total improvements leveraged by the grant funds. For example a \$10,000 grant could leverage \$20,000 in actual improvements.

### **Appendix A: Results of Prior Year Projects**

**20.** Was your department able to spend the CDBG allocation awarded within the calendar year? (Provide explanation for any extensions into the next year for 2021).

We have had issues spending all of the money in the calendar year and have asked for extensions. We have adjusted our annual request and have worked on better marketing of this program. We anticipate having all funds caught up by the end of 2024.

21. Has your department had any CDBG funds reprogrammed (taken back) by the CDBG Board? (Explain for 2022)
No.
