Dear Sir,

My name is Andrew Vossekuil. I am a resident of Waukesha and recently moved here in the summer of 2014. I am writing you today in regards to my water bill from the period 4-20-2015 to 7-20-15. During this time period, and actually throughout the summer, I replaced a portion of my yard with new sod. Because of this, the wastewater portion of my bill should be drastically different then my actual water usage as a good portion of the water used was indeed soaked into the grass and did not make it to the sewer. My question to you is can we adjust my bill according to the previous waste water usage in other periods? Also, what can I do in the future to prevent this from occurring again?

My account number is 319417000 and my customer number is 049751.

Thanks you for your time and consideration regarding this matter. My contact information is above.

Sincerely,

Andrew J. Vossekuil
