Subject: McDonald's Restaurant, 801 Meadowbrook Road – Final Site Plan & Architectural Review	

Details:

The applicant is requesting site plan approval for a modification to the current drive-through configuration. The current setup is for a single ordering station/menu board. The new plan will create two ordering stations, similar to other McDonalds restaurants in the City. The addition of the second ordering station and additional vehicle queuing space usually results in fewer internal (and sometimes external) traffic issues at peak times. There will also be additional landscaping installed in the modified areas.

Options & Alternatives:

The Plan Commission could deny the site plan modifications and leave the drive-through configuration as is.

Financial Remarks:
