To whom it may concern:

We at Banting Elementary School located at 2019 Butler Drive in Waukesha are requesting a sign variance to replace our current sign with a new digital one.

Banting Elementary is a neighborhood school and we are asking for consideration to install a digital (reader board) sign. The current sign is outdated, faded, and information must be updated by hand regardless of the weather (see attached photo). A reader board sign will allow Banting to run multiple up-to-the-minute messages clearly displayed for our families through a computer system that can be conveniently updated from multiple locations. Additionally, a new digital sign will help to reflect the accomplishments and pride we have in our great school.

We appreciate your time and consideration. Please don't hesitate to reach out if more information is needed.

Regards,

Jessica L. Gonzalez
