3. Standing Committees

A. Finance Committee - Ald. Pieper

B. Building & Grounds Committee - Ald. E. Payne

A. [ID#20-1137](#) Please approve a crosswalk with approach signs on Penhurst Way at the intersection of Penhurst Way and Austin Court. Discuss and recommend two stop signs on Penhurst Way and the intersection of Austin Court. (revised to only approve the crosswalk markings and associated crosswalk signing at Penhurst Way and Austin Court)

Resolution #2020-53

This item was brought forward by Ald. Cummings to establish two stop signs on Penhurst Way at Austin Court. If approved, this intersection is recommended to be an All Way stop since it is not safe to stop traffic in two direction and not the third approach in this case. Engineering staff has reviewed this request and does not see why a stop condition should be installed at this location. Normally, engineering would conduct a traffic study at this intersection. However, since the volumes of traffic are very low, a warrant to install an All Way stop would not be met in this case. The Department of Public Works does not recommend approval of this item. Instead, the residents and Alderman should contact the school bussing company to insure that, during a bus stop condition, that the street crossing is safe for students.

This item was discussed at the September 14, 2020, Building and Grounds Meeting and held to the October 5, 2020, meeting. Ald. Cummings is going to review this item in more detail with the School district. Subsequently, Engineering staff has reviewed this location and would support the installation of a Bus Stop warning sign (S3-1) in advance of the bus stop location.

This item was discussed at the October 5, 2020 Building and Grounds Meeting and held to the November 2, 2020, meeting. Ald. Cummings is going to review this item in more detail with the School district.

- B. [ID#20-1306](#) Please approve revising the posted speed limit on Summit Avenue to move the transition point between 25 and 30 MPH back to be 500 feet east of the centerline of N. Moreland Blvd. Summit Avenue will be posted 25 MPH from that point east and 30 MPH from that point west.

Resolution #2020-53

This item was referred by Ald. Pieper and endorsed by Ald. Corey Payne. In September 2020, Engineering staff conducted a crash study of the intersection of Summit Avenue and N. Washington Avenue. Said study produced findings and made recommendations to improve safety. One such item was to adjust the existing posted speed limit as detailed in the subject line. The Department of Public Works does not have any issues with this item.

- [ID#20-1307](#) Please approve installing pavement marking on Springdale Road to make it a 4-lane roadway from E. Moreland Blvd. to Bluemound Road.

This item was removed from Consent and handled and passed under Building and Grounds Committee. Resolution #2020-53

This item was referred by Ald. Don Browne. In September 2020, Engineering staff conducted a traffic study of the intersection of Springdale Road from E. Moreland Blvd. to Bluemound Road. Said study produced findings and made recommendations to improve safety along the corridor. At their October 5, 2020, Building and Grounds meeting, the committee discussed several recommendations that Engineering staff had presented. The committee felt that installing pavement marking on Springdale Road to demarcate it as a 4-lane roadway (2 lanes in each direction) was the best solution. Ald. Browne then made the subject referral to get official approval. The Department of Public Works does not have any issues with this item.

- D. [ID#20-1308](#) Please approve No Parking Any time on the east and west sides of Springdale Road from E. Moreland Blvd. to Bluemound Road.

Resolution #2020-53

This item was referred by Ald. Don Browne. In September 2020, Engineering staff conducted a traffic study of the intersection of Springdale Road from E. Moreland Blvd. to Bluemound Road. Said study produced findings and made recommendations to improve safety along the corridor. At their October 5, 2020, Building and Grounds meeting, the committee discussed several recommendations that Engineering staff had presented. The committee felt that installing pavement marking on Springdale Road to demarcate it as a 4-lane roadway (2 lanes in each direction) was the best solution. Ald. Browne then made the subject referral to get official approval. The Department of Public Works does not have any issues with this item.

- E. [ID#20-1309](#) Please approve installing crosswalk markings and a stop bar on the Hollidale Drive approach to Springdale Road.

Resolution #2020-53

This item was referred by Ald. Don Browne. In September 2020, Engineering staff conducted a traffic study of the intersection of Springdale Road from E. Moreland Blvd. to Bluemound Road. Said study produced findings and made recommendations to improve safety along the corridor. At their October 5, 2020, Building and Grounds meeting, the committee discussed several recommendations that Engineering staff had presented. The subject item of installing markings on Hollidale Drive was part of the recommendations. Ald. Browne then made the subject referral to get official approval. The Department of Public Works does not have any issues with this item.

- F. [ID#20-1311](#) Please approve No Parking Any Time on the north side of W. College Avenue from the centerline of N. West Avenue to 250 feet west.

Resolution #2020-53

This item was brought forward by Ald. Miller. The request is to remove parking on the north side of College Avenue from West Avenue to the west in order to promote safe turning movements from West Avenue to College Avenue. When cars are parked too close to the intersection, movements are constricted. The subject referral lists signing that would be needed to accomplish this. The Department of Public Works does not have any issues with the request.

- G. [ID#20-1318](#) Please establish crosswalk markings on the pavement at Wildberry Court.

Resolution #2020-53

This item was brought forward by Ald. Cummings. The request is to have crosswalk marking painted at the intersection of Rempe Drive and Wildberry Court. The Department of Public Works does not have any issues with this request. It should be noted, however, that all painting work has ceased for 2020 and this location would not be physically painted until 2021.
